## 1999 ANNUAL REPORT

### PREFACE

This is the first annual report published for our agency. As of July 1, 1999, the former Property Tax Division of the Department of Revenue became a separate agency called the Department of Property Assessment & Taxation, directed by the Property Tax Administrator. All property tax data prior to 1999 can be found in the Department of Revenue's Annual Report.

The purpose of our annual report is to provide interested citizens with pertinent information about property valuations, tax rates, and taxes levied for local governments. The annual report focuses on summary information for the current tax year and also provides historic data for the state.

The information contained in this annual report should be viewed as a source material. Although every attempt for accuracy is made, this report should not be viewed as a substitute for independent research or legal document in place of an attorney's opinion.

A sincere thank you is extended to all Nebraska assessors for their efforts in reporting data which serves as the basis for much of our annual report.

The Department of Property Assessment & Taxation appreciates any comments that you may have regarding the format, content and usefulness of this information.

# P U R P O S E

---

**T**he purpose of the Nebraska Department of Property Assessment and Taxation<sup>1</sup> is to develop information, in various formats, that assists the administrators, payers and beneficiaries of the property taxes to make informed decisions concerning the quality of the assessment function of the property tax system in Nebraska. Beginning on July 1, 1998, the Department assumed the assessment function in several counties in Nebraska.

The Department, directed by the Property Tax Administrator<sup>2</sup>, is statutorily created and is governed by the Nebraska Constitution and statutes. Its functions include, but are not limited to, the following:

- To provide legal, policy and assessment information through regulations, rulings, directives, standards, manuals, and education, to the county assessors and other assessing officers to ensure the uniform execution of the property tax laws .<sup>3</sup>
- To administer the assessment function in counties which have transferred that responsibility to the Property Tax Administrator .<sup>4</sup>
- To provide advice concerning the assessment of real property to ensure the uniform and proportionate valuation of real property .<sup>5</sup>
- To provide information to the property owner concerning the level of value and quality of the assessment of real property in each county .<sup>6</sup>
- To determine the assessable valuation of all taxable property in each school district .<sup>7</sup>
- To value and distribute the value of property required to be valued by the state, such as railroad companies, public service entities, car line companies, and air carriers .<sup>8</sup>
- To administer the assessment administrative program for contracted counties.<sup>9</sup>

---

## Property Tax Administrator

The Property Tax Administrator is the chief executive officer of the Department of Property Assessment and Taxation. The qualifications and duties of the Property Tax Administrator are established by statute (see, section 77-701 and 77-702, R. S. Supp., 1999). The Property Tax Administrator is appointed by the Governor with the approval of a majority of the members of the Legislature. The term of the current Administrator will expire on August 31, 2002.

## Administration

The Administration Division is responsible for management of the support functions of the Department, including the supervision of support staff in the Lincoln office and the data entry staff. As well, this Division performs the personnel, budget and accounting and other administrative functions for the Department.

## Policy/Legal

The Policy/Legal Division is responsible for all legal matters for the Department. The Department currently has one attorney to serve all legal functions. Additionally, the Department has Associates that provide policy functions such as legislation, regulations, correspondence, education, certification of the assessor's certificate, and other associated duties. This Division is responsible for specific statutory duties, including: valuation of state assessed property (railroad companies, public service entities, car companies and air carriers); determination of adjusted valuation of each school district; administrative reports gathering state-wide information of valuation and property taxes; and, promulgation of the Nebraska Agricultural Land Valuation Manual and other manuals.

## PTAS/CAMA

The Property Tax Administrative System/Computer Assisted Mass Appraisal Division (PTAS/CAMA) is responsible for the administration of the computer software program that the Department provides to its assessment offices and through contract to interested counties. The program was acquired in 1998 and replaced the former program known as County Administered Property System (CAPS), which was developed in the late 1960's. Additionally, the staff of this Division assists the Policy/Legal Division in specific support staff functions, such as the distribution of car company and air carrier taxes and creation of the Tax Increment Finance Annual Report.

## Information Technology

The Information Technology Division is responsible for the Department's personal computer environment and providing advice and assistance to all Department staff on the utilization of the programs used by the Department. Currently, this Division's staff troubleshoots all technology issues. DAS-Information continues to provide high level assistance in all technology areas, including program development.

## Measurement

The Measurement Division is responsible for ascertaining the level of value and quality of assessment of all real property. This Division works directly with the county officials providing advice and guidance on all issues of the assessment process, with particular focus on the assessment of real property. This Division develops the sales file that is used throughout the assessment process, including: adjusted valuation for school districts; information for the Reports and Opinions of the Property Tax Administrator provided to the Tax Equalization and Review Commission; and, valuation information for use by the county assessors. The sales file is a statutorily required database containing sales of real property for use in valuation and measurement. The two groups of employees in this Division are the Field Liaisons and the Reviewers. Both the Liaisons and the Reviewers are located throughout the state, so that they are experienced in the area of their work and are readily available for assistance to the counties that they serve. The Liaisons work with the county assessors on analysis of sales information and other assessment issues. The Reviewers conduct the sales review and verification process for all agricultural and commercial real property sales.

## Assessment

The Assessment Division is responsible for performing the assessment function in counties where the function has been assumed by the Department. These functions include management of the assessment office in each county and the appraisal of all real property in each county. As of July 1, 1999, the Department assumed the assessment function in the following seven counties: Dakota, Dodge, Garfield, Harlan, Keith, Saunders and Sherman. While the process for managing the assessment office is fairly unchanged as a result of the state assumption, the Department's philosophy regarding the appraisal function is different from that of an individual county. The Department is creating an appraisal staff that is to be shared among the counties that are assumed. It is hoped that sharing these resources will allow for a more efficient allocation of these resources. While some of the counties are large and active enough to justify their own appraiser or appraisers, some of our counties are small enough, that if closely proximate to one another, will share appraisal staff.

# PROPERTY TAX HISTORY

---

Since the beginning of Nebraska's statehood, property tax was a major source of state and local operating revenue. This tax was initially adopted by the Territorial Legislature in 1857. The growing need for public services and changes in economic structure caused property taxes to steadily increase. This in turn prompted the necessity for relieving property taxes and providing new sources of revenue.

In November 1966, approval of a constitutional amendment abolished "state" property taxes. Also, the Legislature repealed the head and poll taxes, the tax on intangible property, the tax on household goods, and certain miscellaneous personal property taxes. In order to replace lost revenues, the Legislature adopted two broad-based taxes in the Revenue Act of 1967; the state sales and use tax and the income tax. In addition to replacing lost state revenue, a portion of the sales and income tax monies were designated to finance state aid programs. At that time, \$35 million was designated annually for aid to school districts. An additional \$10 million each year was distributed to cities and counties to replace lost revenues due to the elimination of intangible property, household goods, and personal effects from the property tax base.

In 1969, the Homestead Exemption Act was passed to provide property tax relief to owners of residential property. It provided for an exemption of \$800 of actual value for residences valued at \$4,000 or more. At that time, it involved about \$3.5 million annually. The homestead exemption benefits have been changed over the years and currently provide for an exemption of all or part of real property taxes, for individuals over 65 with limited income, veterans, and individuals with certain disabilities. Additionally, approximately, \$1.5 million dollars was appropriated for public and junior colleges.

Since 1967, "local" units of government have exclusively levied property taxes. In 1999, Nebraska's local governments levy approximately \$1.5 billion in property taxes along with approximately \$ 920 million in local tax relief (state aid), which is also distributed, to local governments (see statistical table 3).

Over the years, Nebraska's property tax structure has changed as the Legislature attempted to address various economic concerns. Property tax remains primarily a tax on real property but changes have been made in the classification of property, as well as the level of assessment at which property is taxed. Nebraska's constitution, Article VIII, Section 1, requires uniformity and proportionality both as to the rate and the valuation.

Social and economic trends continue to impact Nebraska citizens' views on all taxes and state aid programs. Meanwhile, the payers and recipients of taxes share in the benefits of public schools, roads, law enforcement, and a number of other public facilities and programs.

# SUMMARY OF LEGAL/LEGISLATIVE ACTIONS THAT HAVE SHAPED NEBRASKA'S PROPERTY TAX POLICY

---

## Agricultural Land:

1984: *Kearney Convention Center v. Board of Equal.*, 216 Neb. 292, 344 N.W.2d 620 (1984). Commercial property owner requested that their valuation be equalized with agricultural land which was assessed at a lower level of value.

1984: Constitutional amendment, Article VIII, section 1, subsection (4); agricultural land is defined as a separate and distinct class and authorized the use of any different approach to value agricultural land.

1986: The Legislature adopted a method to value agricultural land according to a formula based on earning capacity. Income streams were averaged by county and the capitalization rate was fixed in statute. Earning capacity is not similar to the income approach to value as used in professionally accepted appraisal practices.

1987: *Banner County v. State Bd. of Equal.*, 226 Neb. 236, 411 N.W.2d 35 (1987). While the constitution stated that agricultural land was a separate and distinct class of property, the constitution still required that all real and tangible personal property values be uniform and proportionate. Using the earning capacity formula to value agricultural land would have been allowable if the resulting values had been correlated to be proportionate with all other real and tangible personal property.

1990: Constitutional amendment; agricultural land defined as a separate class of real property and removed from the uniform and proportionate clause, meaning that it need not be uniform and proportionate with OTHER CLASSES of property. However, the values of agricultural land must be uniform and proportionate within the class of agricultural land.

1992: The Legislature allows agricultural land to be valued at 80% of actual or market value. All other real property is to be valued at 100% of actual or market value.

## Personal Property:

1967: The State no longer levied a property tax. The Legislature exempted household goods, clothing and other personal items, and exempted intangible personal property such as stocks, bonds and certificates of deposit.

1970: Constitutional amendment; voters give approval to the Legislature to classify and exempt personal property.

1972-1974: The Legislature partially exempted from taxation agricultural income producing machinery and equipment; business

inventory; livestock; grain and seed; and poultry, fish and fur bearing animals. The Legislature provided for a 12.5 percent exemption of actual value for calendar year 1973. The exemption increased by 12.5 percent each year until a total of 62.5 percent was exempt in 1977. Political subdivisions were reimbursed for the tax revenue loss resulting from these exemptions. In 1974, the Nebraska Supreme Court ruled that personal property tax exemptions were constitutional.

1977-1981: The Legislature completely exempted from taxation the classes of personal property that were partially exempted except business inventory and livestock were fully exempted in calendar year 1978. The Legislature appropriated \$58.6 million as Personal Property Relief to reimburse local governments for the losses resulting from these exemptions. Business inventories became totally exempt for calendar year 1979 and a reimbursement of \$62.2 million was appropriated for fiscal year 1979-1980. Livestock became totally exempt in calendar year 1980 and a reimbursement of \$70 million was appropriated for fiscal year 1980-1981.

1982: The Legislature eliminated the Personal Property Tax Relief and the Government Subdivision Fund. LB 816 provided for the distribution of aid to community colleges, natural resource districts, incorporated municipalities, counties, and for aid to school districts from the School Foundation and Equalization Fund.

1986: Car line companies began requesting that their personal property be equalized with all personal property. Citing protection under the 1976 Federal Railroad Revitalization and Regulatory Reform Act – the 4-R Act, the car line companies argue that since much of the personal property in Nebraska was exempt from taxation by the legislature (inventory, agricultural machinery and equipment, earth-moving equipment, etc.), therefore their personal property is being taxed to a greater degree than other personal property in Nebraska. Based upon the 4-R Act, the Federal District Courts ruled that the Nebraska property tax on personal property of car companies violated the Federal 4-R Act. The State was prohibited from collecting property tax on car companies.

1987: Railroads filed suit against Nebraska arguing that the property tax on railroad personal property violated the Federal 4-R Act. The litigation was settled in 1989, resulting in the railroad companies paying tax on 25 percent of their value attributed to personal property for 1987, 1988, and 1989.

1988-1990: Following the railroads, other centrally assessed companies such as pipelines, telecommunications, and airlines appealed to the State Board requesting equalization of their personal property with the exempt property of car companies and railroads. The companies were denied by the State Board and appealed to the Nebraska Supreme Court based on the Nebraska constitutional requirement of uniform and proportionate values for the levy of property taxes.

1989: The Nebraska Supreme Court ruled in favor of four pipeline companies for the 1988 tax year, and the State Board equalized their personal property value to zero. In July 1991, the Nebraska Supreme Court ruled on the tax year 1989 equalization requests of centrally assessed companies. The court found that equalization was not an appropriate remedy. All previous personal property exemptions were declared unconstitutional, effectively overturning the 1974 decision allowing personal property exemptions. As a result of the court's decision on the 1989 cases the State Board reduced the 1990 certified values of the appealing centrally assessed companies by 18.81 percent.

1991: During the legislative session, it became clear that, due to the mounting litigation, something drastic needed to be done to address the problem. While no "long-term" solutions were agreed upon, two short-term options were identified: 1) tax ALL personal property (including inventory, agricultural machinery, etc.) at its actual value; or 2) exempt all personal property from taxation. For 1991, the latter option was adopted and personal property was exempted from taxation.

1992: Constitutional amendment; removed personal property from the uniform and proportionate clause of the constitution. The Legislature enacted the "net-book" concept of taxing depreciable tangible personal property was adopted by the legislature.

### **State Aid to Education (TEEOSA):**

In 1990, the Legislature enacted the Tax Equity and Educational Opportunities Support Act (TEEOSA). LB 1059 increased sales and income taxes to provide additional state aid to schools and reduce the reliance on property taxes to fund public education. While the formula for distributing state-aid has been adjusted several times since 1990, some basic elements dealing with the assessment of property remain. Measuring each school district's ability to generate revenue through property taxes is an important component in the school-aid formula. To that end, beginning in 1994, the assessable property valuation (agricultural land at 80% of actual value and all other real property at 100% of actual value) of each school district has been determined by the Department of Property Taxation and Assessment each year. This provision "levels the playing field" and prevents a school district from receiving an unfair advantage in the school-aid formula if their property valuations are at a lower level than other school districts.

### **Other Recent Changes in Property Assessment Process:**

In 1994, the Legislature made changes to homestead exemptions; redefined household income, increased the amount of exemption, required the filing of an income statement, placed limits on the value of the home for which an exemption application is made, and implemented a sliding scale that allows partial exemption as income increases.

Real Estate Transfer Statements (Form 521) filed on or after January 1, 1995 are no longer confidential. This provides greater public access to property sales information.

In 1996, the Tax Equalization and Review Commission replaced the State Board of Equalization and Assessment in the equalization of property valuations. In addition to its constitutional statewide equalization duties, the Commission hears individual appeals from county board of equalization decisions, replacing the district courts. Commissioners are appointed by the Governor and serve six-year terms.

Since 1996, the property assessment process has also been dramatically changed. Rather than the county board of equalization acting first, the statewide equalization is completed first and then the county board of equalization performs its duties.

In 1996, for purposes of statewide equalization, the Legislature established acceptable ranges for the level of value. The acceptable ranges for the level of value are 74 to 80% of actual value for agricultural land and 92 to 100% for all other real property.

In 1996, the Property Tax Administrator position is created to oversee the Property Tax Division of the Department of Revenue. The powers and duties of the State Tax Commissioner relating to valuation and taxation of property transferred to the Property Tax Administrator. The Property Tax Administrator is appointed by the Governor and approved by the Legislature to serve a six-year term.

In 1997, the Legislature changed the method for taxation of motor vehicles to a formula rather than according to value. Responsibility for motor vehicle taxation was shifted from the county assessor to the county treasurer.

Beginning July 1, 1998, a county board may vote by resolution to have the Property Tax Administrator assume the county assessment function. The state then becomes fiscally responsible for the assessment functions in that county. County assessor and employees of the assessor's office become state employees.

As of July 1, 1999, the former Property Tax Division of the Department of Revenue became a separate agency called the Department of Property Assessment and Taxation, directed by the Property Tax Administrator.

# 1999 LEGISLATION

---

The following summary highlights pertinent sections of 1999 legislative bills affecting the property assessment and taxation process. Sections not listed typically change statutory cites or language to harmonize the legislation or intended change.

**LB 36 Governor signed on May 20, 1999, contains the emergency clause.**

Section 1 (77-1776). Any political subdivision that has received proceeds from an incorrect levy imposed on all taxable property within the entire county which is in excess of that requested by the subdivision shall in the following fiscal year return the excess to the county. The county treasurer shall certify to the political subdivision the excess tax collections. Became operative on July 1, 1999.

Sections 21 thru 28 (77-701 thru 77-708). Became operative on July 1, 1999. Creates the Department of Property Assessment and Taxation.

All other sections are name changes from Property Tax Division, Tax Commissioner and Department of Revenue to the Department of Property Assessment and Taxation and also became operative on July 1, 1999.

**LB 194 Governor signed on April 28, 1999, contains the emergency clause.**

Section 2 (18-2147). Requires a Redevelopment Authority under tax increment financing to provide the county assessor a written notice by August 1 of the year of the effective date of the provision for dividing ad valorem taxes.

Section 3 (23-3202). Provides that the Property Tax Administrator does not have to hold an assessor's certificate for assuming the duties of a county assessor.

Section 7 (77-128). Defines clerical error as a transposition of numbers, mathematical error, computer malfunction causing programming and printing errors, data entry error, items of real property other than land identified on the wrong parcel, incorrect ownership, or certification of an incorrect valuation to political subdivisions.

Section 8 (77-129). Defines the assessment roll as a complete and verified list of all real property and taxable tangible personal property in a county and the associated assessments.

Section 10 (77-202.01). Provides for a method of collecting and distributing the penalty on the late filing for a permissive exemption. The penalty is collected and distributed the same as property taxes and is

subject to delinquent interest and can also become a lien on the property. Also the penalty is now against the property and not the organization.

Section 11 (77-202.03). Provides that if an educational religious, charitable agricultural or horticultural society purchases property, which is already exempt, between August 1 and levy date and the property continues to be qualified for an exemption the purchaser shall make application on or before December 1. The review of the application by the county board of equalization shall be completed by December 15.

When the county board of equalization, after a review determines an exemption should be denied, they shall send a notice of the assessed value in the same manner as unreported real property. The property owner then has 30 days after the mailing of the notice to appeal the valuation to the county board of equalization.

When personal property, which was exempt becomes taxable because of the loss of exemption status, the owner or agent has 30 days after the date of denial of the exemption to file a return with the assessor. After 30 days, the assessor shall proceed to list and value the personal property and apply the applicable penalty.

Section 12 (77-1233.04). Becomes operative on January 1, 2000. Provides that any personal property return filed or valuation added to a return already on file by the assessor or property owner after May 1 and on or before July 31 shall be subject to a penalty of 10% of the tax due on the value added.

Any return filed or valuation added to a return already on file by the assessor or property owner after July 31 shall be subject to a penalty of 25% of the tax due on the value added.

Section 14 (77-414). Requires the Property Tax Administrator, through regulations, to establish, implement and maintain a required system of educational courses for the certification and recertification for county assessors.

Section 15 (77-1301). Requires the county assessor to complete the assessment of real property by March 20.

Section 16 (77-1303). Assessment of real property must be completed by March 20 rather than April 1.

Section 17 (77-1315). Requires the assessor to implement adjustments for actions of the agricultural and horticultural land valuation board and the Tax Equalization and Review Commission to the real property assessment roll after March 20 and on or before June 1

Section 18 (77-1315.01). Requires the county assessor to report after March 20 and on or before July 25, to the county board of equalization overvalued or undervalued real property.

**Section 19 (77-1317).** Requires the county assessor to report to the county board of equalization after March 20 any omitted real property from the assessment roll for the current year or any former year.

**Section 20 (77-1318).** Requires the county assessor to impose penalties after March 20 for improvements voluntarily or not voluntarily reported to the county assessor.

**Section 22 (77-1330).** Is the rewrite of section 77-1330 to incorporate sections 77-425, 77-1336 and 77-378. This section deals with the enforcement procedures which may be implemented by the Property Tax Administrator for non-compliance by a county assessor with statutes, manuals, directives, rules and regulations.

**Section 23 (77-1501).** Requires the county treasurer or designated county official to attend all meeting of the county board of equalization that involve the exemption of motor vehicles.

**Section 26 (77-1504.01).** Requires the county board of equalization petition to the Tax Equalization and Review Commission for a class or subclass adjustment to be filed with the Commission on or before July 26, rather than August 1.

Allows the Commission, acting on a petition from the county board of equalization, to issue an order excluding individual properties that have already received an adjustment by the county board of equalization.

**Section 27 (77-1507).** Allow the county board of equalization to meet at any time and send notice for clerical errors that result in a change of valuation.

Protests for the valuation change because of a clerical error must be filed within 30 days after the mailing of the notice.

**Section 28 (77-1514).** Requires the assessor to file the real property abstract with the Property Tax Administrator on March 20 rather than April 1. Allows the Property Tax Administrator upon written request from the county assessor to extend the statutory due dates for filing the abstract, due to actions of Area Agricultural and Horticultural Land Valuation Boards, and the Tax Equalization and Review Commission orders.

**Section 30 (77-1613.04).** Allows the county assessor after July 25, with approval of the county board of equalization to correct the assessment roll and the tax list, if necessary in the case of clerical errors that result in a change of value.

The county assessor may correct clerical errors that do not result in a change of value on the assessment roll at any time.

**Section 32 (77-1734.01).** Removes the “of which the taxpayer had no notice” language from section 77-1734.01 for the refund of taxes because of clerical error or honest mistake.

Section 33 (77-5007). Provides for the Tax Equalization and Review Commission to hear appeals on decisions of the Property Tax Administrator regarding enforcement procedures for non-compliance by a county assessor under section 77-1330.

Section 34 (79-1016). Becomes operative on January 1, 2000. Requires that on or before August 25 the county assessor shall certify to the Property Tax Administrator the total taxable value by school district in the county for the current year on forms prescribed by the Property Tax Administrator.

On or before October 10, the Property Tax Administrator shall certify to the State Department of Education and each local school system the adjusted valuation for the current year for each class of property. The present date for certification is July 1.

On or before November 10, any local school system may file written objections to the certified valuations. Also on or before November 10, any local school system or county official may file a written request for a correction of the certified valuations due to clerical error or for agricultural land assessed valuation changes due to greenbelt. The Property Tax Administrator has to act on the objections and requests on or before January 1.

**LB 271. Governor signed on May 25, 1999. This act becomes operative on January 2, 2000.**

Section 1 (21-1927). Removes the language relating to nonprofit corporations organized for the benefit of a governmental body who was receiving the same exemption benefit as the governmental body. They no longer will be exempt.

Section 4 (77-202). Property of the state and its governmental subdivisions is exempt to the extent used or being developed for use by the state or governmental subdivision for a public purpose.

Public purpose does not include leasing of property to a private party unless the lease of the property is at fair market value for a public purpose.

Leases of property by a public housing authority to low-income individuals as a place of residence are for a public purpose and not subject to taxation.

Unleased property of the state or its governmental subdivisions which is not being used or developed for use for a public purpose but upon which a payment in lieu of taxes is paid is exempt from property taxes.

Property of any organization that is used for the exclusive benefit of any educational, religious, charitable or cemetery organization is exempt. This replaces the repealed language under section 1 relating to nonprofit corporations organized for the benefit of a governmental body.

Section 8 (77-202.22). Leased public property used for a non-public purpose, shall be taxed or exempted from taxation as if the property was owned by the leaseholder. The value shall be determined in the same manner as other taxable property. Taxes shall be paid by the leaseholder and shall be a lien against the leaseholder's interest.

By January 31, the state and every governmental subdivision leasing property shall provide to the county assessor a copy of each lease, in effect on January 1 of that year, for property owned by the state or governmental subdivision.

Notice of delinquent taxes shall be timely sent to the lessee and to the state or its governmental subdivision. No lien shall be attached to the property for failure of the lessee to pay the taxes due. Taxes on property assessed to the lessee shall be a first lien upon the personal property of the lessee and shall be collected in the same manner as personal property taxes. The state or a governmental subdivision shall not be obligated to pay the taxes if the lessee fails to pay.

The state or a governmental subdivision may if it so chooses, provide the assessor a description of the property rather than a copy of the lease; request that the assessor notify it of the amount of tax which would be assessed to the leaseholder; voluntarily pay the tax; and collect the tax from the leaseholder as part of the rent.

Section 9 (77-202.12). On or before March 1, the county assessor shall send notice to the state or to any governmental subdivision if it has unleased property not being used for a public purpose upon which a payment in lieu of taxes is not made. Such notice shall be sent by first-class mail to the last known address, shall inform them the property is subject to taxation and contain the legal description.

The state or governmental subdivision may protest such determination to the county board of equalization on or before April 1. The county board of equalization shall issue its decision on or before May 1. The decision of the county board of equalization may be appealed to the Tax Equalization and Review Commission on or before June 1.

**LB 813. Governor signed on May 12, 1999, contains the emergency clause.**

Section 1 (13-509). Requires the county assessor, on or before August 20, to certify to the State Department of Education the current taxable value for all school districts in their county.

**LB 881 Governor signed on May 26, 1999, contains the emergency clause.**

**Section 1 (77-5302). The Relief to Property Taxpayers Act was created to provide property tax relief for property taxes levied against real property, not personal property.**

**Section 4 (77-5304). For the year 2000, the Act grants 35 million dollars of property tax relief to all real property as a property tax credit which shall appear on the property tax statement. This tax credit is applicable to all real property parcels in the county including the real property portion of centrally assessed companies, i.e., public service entities and railroads. It is the intent of the legislature to fund the act through 2003 using available excess revenue in the state's general fund.**

**The amount of the thirty-five million disbursed to each county is based upon the ratio of each county's total real property valuation to the total real property valuation for the state. By September 15, 2000, the Property Tax Administrator shall determine the amount to be disbursed to each county and certify the amounts to the State Treasurer and each county.**

**The county treasurer determines the amount of credit that appears on the tax statement by the ratio of each parcel's valuation to the total county valuation for real property.**

**The relief also applies to owners who are qualified for the homestead exemption. If the amount of the homestead exemption and the property tax relief combined exceed the amount of taxes assessed, then the excess relief shall be refunded to the state.**

**Section 7 (77-1701). Beginning with tax year 2000, when taxes are delinquent for a prior year, the county treasurer shall indicate this information on the current tax statement in bold letters. The language shall read "Back Taxes and Interest Due For", followed by numbers to indicate each year for which back taxes and interest are due.**

**Section 8 (77-1704.01). Beginning with tax year 2000, the county treasurer shall include with each tax statement the amount of taxes reflected on the statement that are levied by each subdivision for the current year and the prior year for each parcel.**

# ADMINISTRATION OF PROPERTY ASSESSMENTS AND TAXATION

---

**All** property in the state of Nebraska is subject to property tax unless an exemption is mandated by the Nebraska Constitution, Article VIII, or is permitted by the constitution and enabling legislation is adopted by the Legislature. Federal law may supersede the Nebraska Constitution with regard to taxation of property owned by the federal government or its agencies or instrumentalities. All property in the state of Nebraska, which is subject to taxation, shall be valued as of January 1, 12:01 a.m., of each year.

The assessor is responsible for valuing all real and personal property with the exception of railroads, public service entities, and specific personal property of air carrier and rail car line companies, which are assessed by the Property Tax Administrator. The valuation of real property is determined according to mass appraisal techniques, including but not limited to the following: (1) comparing sales of properties with known or recognized values, taking into account location, zoning, and current functional use; (2) income approach; and (3) cost approach. The valuation of personal property is determined using a statutory method of depreciated values similar to the Federal Modified Accelerated Cost Recovery System and 150 percent declining balance depreciation schedules.

Between January 1 and March 20 of each year, the assessor updates and revises the real property assessment roll. By April 15, agricultural and horticultural land valuation boards (AHLVB) may order an assessor to make changes to agricultural land values. Decisions of the AHLVB may be appealed to the Tax Equalization Review Commission (TERC), within 15 days of their published notice of action. Between April 1 and May 15 the TERC has the authority to adjust by a percentage the valuation of classes or subclasses of real property in any county in order to achieve equalization of property values. Decisions of the TERC may be appealed to the Nebraska Court of Appeals.

The assessor revises the real property assessment rolls, for any actions taken by the agricultural and horticultural land board or TERC, and notifies property owners of value increases or decreases by June 1. Individual protests of real property valuations may be made to the county board of equalization. The county board of equalization may adjust the protested value of individual properties. Decisions of the county board of equalization may be appealed to the TERC.

Personal property is self reported by the taxpayer, on or before May 1. If the assessor makes changes to the reported valuation a notice must be sent to the taxpayer. The action may be appealed to the county board of equalization.

On or before August 10, the TERC equalizes the real property of centrally assessed railroad and public service entities with the level of statewide assessment. The Property Tax Administrator certifies centrally assessed values to the counties.

On or before August 20, the assessor compiles and certifies the total taxable value (real, personal, and centrally assessed) to each local government taxing subdivision for rate setting purposes.

Each year, on or before October 15, the county board of equalization levies the necessary taxes, within the limits of the law, for operation of all functions of county government, school districts, cities, etc. The tax rates for these various local government taxing subdivision are determined by the dividing the subdivision's annual tax request by the current total taxable value within their boundaries. The tax rates are expressed as \$1.00 per \$100 dollars of taxable value.

Property taxes are determined by multiplying the property's taxable value by the total consolidated tax rate for the tax district in which the property is located. The tax district is comprised of various governing bodies empowered to levy property taxes for services, such as county government, school district, city, etc.

On or before November 22, the assessor transcribes the real property tax list and delivers it to the county treasurer for collection of property taxes. All real and personal property taxes, including taxes of centrally assessed railroad and public service companies, are due December 31. The first half of the tax becomes delinquent on the following May 1 and the second half becomes delinquent on September 1, except in Douglas, Lancaster, and Sarpy counties, where the first half is delinquent on April 1 and second half becomes delinquent on August 1.

## Homestead Exemption

The homestead exemption program was created by the 1969 Legislature. The specific requirements have been modified over the years but the main criteria is to provide local property tax relief to qualifying elderly and disabled individuals who own and live in the home for which an exemption application is made. The exemption applies to all or part of the property taxes levied against the home, with the state reimbursing local governments from general fund revenues for those taxes exempted under the program. The laws governing the homestead exemption are found in Nebraska Statutes, Chapter 77, Article 35. For more detailed information, or answers to questions about the Nebraska homestead exemption, please contact the local assessor's office or the Nebraska Department of Revenue.

# STATISTICAL TABLES

---

## Notes regarding statistical tables:

- (1) The data sources for the statistical tables are the Certificate of Taxes Levied Report and the County Abstract of Assessment Report.
- (2) Property taxes levied includes homestead exemption tax loss.
- (3) Property taxes levied excludes taxes levied on redevelopment or enhanced value of community redevelopment projects using tax increment financing. For more information on redevelopment projects see separate report to legislature published March 1, each year.
- (4) The state total valuations and property taxes levied for the years 1967 through current are listed in Table 1. Tax policy changes that affect the valuation or tax are explained in a previous section of the annual report, e.g. 1997 motor vehicles are no longer taxed based on a value. Also listed in table 1 are the state total property tax amounts, mill levies, and average statewide property tax rates for applicable years. Payments in lieu of tax made by public power districts and other in lieu of tax payments are not included in total taxes. For the years prior to 1981, property was valued as follows: for 1920 and prior years, property was assessed at one fifth of its actual value; from 1921 to 1952, property was assessed at its actual value; from 1953 to 1955 property was assessed at 50 percent of its actual value; in 1956 and 1957 property was assessed at 35 percent of its base value; from 1981 to current property has been assessed at 100 percent of market value.
- (5) In Lieu Taxes, Table 22. In Nebraska, every public corporation and political subdivision of the state that is primarily organized to provide electricity or irrigation, and which sells electricity at retail to incorporated cities and villages, makes payments in lieu of property taxes. The payments are equivalent to 5 percent of the gross revenue derived by the power district, plus a fixed amount based on the 1957 levies. Other in lieu of tax payments are also reported for game and parks per section 37-335, housing authorities per section 71-1510, and hospitals per section 77-211.

## Definitions of property type categories reported in the annual report statistical tables:

**Unimproved** – land without buildings or structures.

**Improved** – land upon which buildings or structures are located.

**Improvements** – buildings or structures.

**Residential** – all real property for use as a dwelling place or abode whether occupied by the owner, tenant or lessee, and where occupancy is for a period of time usually year-a-round as opposed to a transitory occupancy.

**Commercial** – all real property predominantly used for commerce, trade, or business.

**Industrial** – all real property used for the process or manufacture of goods or materials.

**Recreational** – all real property that is used for diversion and relaxation on an occasional basis. A dwelling designed for year-round living shall not be categorized as recreational.

**Mineral** – an ownership interest of any minerals, mines, quarries. Producing: mineral is being extracted. Non-producing: mineral is not being extracted.

**Farm home site land** – land within an agricultural parcel, which is used or intended to be used for residential purposes.

**Farm site land** – land within an agricultural parcel upon which is located a building or structure that is used for agricultural purposes. This land shall not be classified as agricultural land and does not include a home site.

**Agricultural land** is agricultural land and horticultural land that is primarily used for the production of agricultural products.

**Exempt** – property that is exempt from property tax, i.e. governmental or permissive exemptions.

**State centrally assessed** – property that is valued for property tax purposes by the Property Tax Administrator. The type of centrally assessed property included in the tables are for operating property of railroads and public service companies.

**Personal Property** – depreciable tangible personal property which is used in a trade or business or used for the production of income, and which has a determinable life of longer than one year. Personal property net book value is determined pursuant to Nebraska's statutorily defined adjusted multiplied by the appropriate depreciation factor.

1 LB 187, 1979 Legislative Session changed the level of Assessment from 35 percent of actual value to 100 percent of actual value.

2 From 1967 to 1980 -- used mill levies. The mill levies have been adjusted to compare with average state-wide tax rates.

3 1997 value excludes motor vehicle pursuant to 1997 NEB Laws LB 271.

1998	2,468,223.48	1,184,931.17	3,653,154.65	513,724.46	363,628.42	877,352.88
1999	3,203,584.81	990,785.13	4,194,369.94	493,794.15	437,831.14	931,625.29

(1) Distribution of taxes occurs in the year following the assessment year.

(2) Carline taxes are distributed to counties' political subdivisions based upon railroad taxes levied.

(3) Air Carrier taxes are distributed to county's general fund based upon all taxes levied within the county vs. state.

**Table 23 History of School Adjusted Value, certified by the Property Tax Administrator to  
Department of Education, Pursuant to Section 79-1016**

**STATE TOTALS; School adjusted value for "school systems"**

*(excludes duplication for elementary schools joined w/CLASS VI high schools)*

<b>Year</b>	<b>Estimated Motor Vehicle</b>	<b>Total Unadjusted Value</b>	<b>Adjustment Amount</b>	<b>% Adj Amount of Unadj. Value</b>	<b>Total Adjusted Value (2) &amp; (3)</b>	<b>Used in Aid Calculations</b>
