## 2000 ANNUAL REPORT

### PREFACE

This is the second annual report published for our agency. As of July 1, 1999, the former Property Tax Division of the Department of Revenue became a separate agency called the Department of Property Assessment & Taxation, directed by the Property Tax Administrator. All property tax data prior to 1999 can be found in the Department of Revenue's Annual Report.

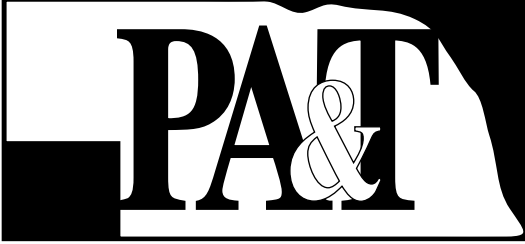

The purpose of our annual report is to provide interested citizens with pertinent information about property valuations, tax rates, and taxes levied for local governments. The annual report focuses on summary information for the current tax year and also provides historic data for the state.

The information contained in this annual report should be viewed as a source material. Although every attempt for accuracy is made, this report should not be viewed as a substitute for independent research or legal document in place of an attorney's opinion.

A sincere thank you is extended to all Nebraska assessors for their efforts in reporting data which serves as the basis for much of our annual report.

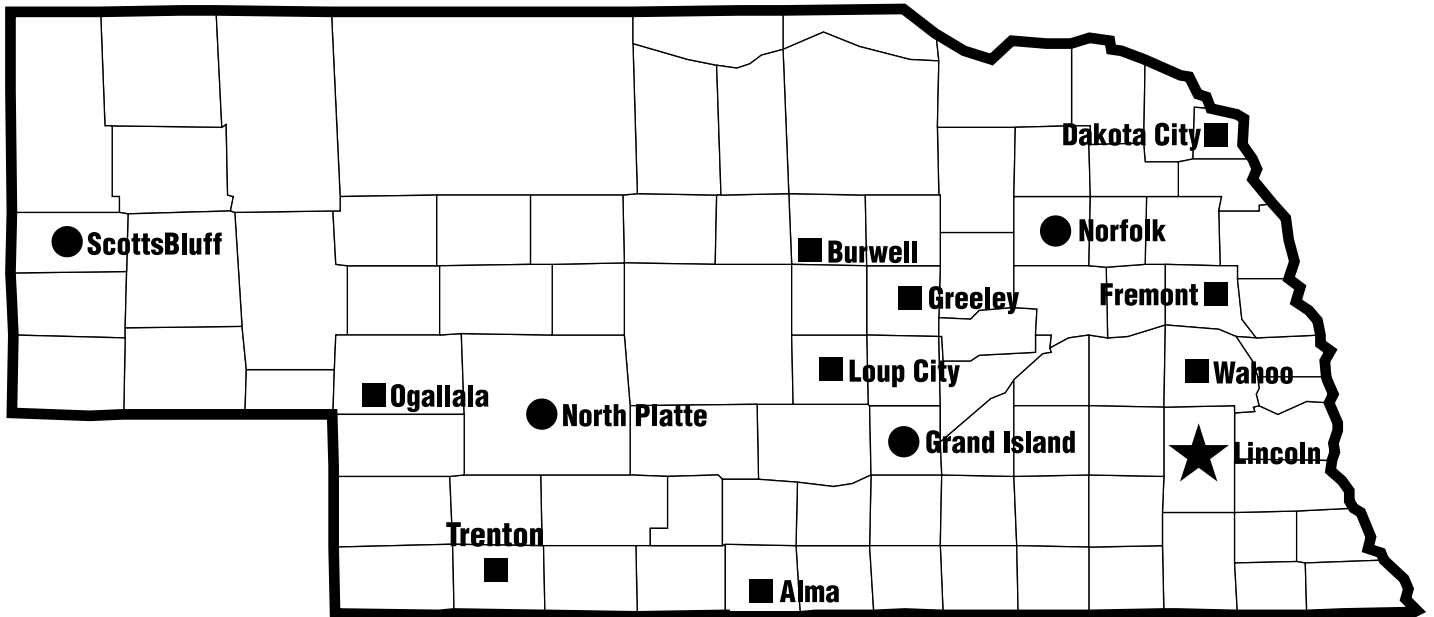

The Department of Property Assessment & Taxation appreciates any comments that you may have regarding the format, content and usefulness of this information.

---

The purpose of the Nebraska Department of Property Assessment and Taxation<sup>1</sup> is to develop information, in various formats, that assists the administrators, payers and beneficiaries of the property taxes to make informed decisions concerning the quality of the assessment function of the property tax system in Nebraska. Beginning on July 1, 1998, the Department assumed the assessment function in several counties in Nebraska.

The Department, directed by the Property Tax Administrator<sup>2</sup>, is statutorily created and is governed by the Nebraska Constitution and statutes. Its functions include, but are not limited to, the following:

- To provide legal, policy and assessment information through regulations, rulings, directives, standards, manuals, and education, to the county assessors and other assessing officers to ensure the uniform execution of the property tax laws .<sup>3</sup>
- To administer the assessment function in counties which have transferred that responsibility to the Property Tax Administrator .<sup>4</sup>
- To provide advice concerning the assessment of real property to ensure the uniform and proportionate valuation of real property .<sup>5</sup>
- To provide information to the property owner concerning the level of value and quality of the assessment of real property in each county .<sup>6</sup>
- To determine the assessable valuation of all taxable property in each school district .<sup>7</sup>
- To value and distribute the value of property required to be valued by the state, such as railroad companies, public service entities, car line companies, and air carriers .<sup>8</sup>
- To administer the assessment administrative program for contracted counties.<sup>9</sup>
- To determine the appraised value for the public sale of educational lands.<sup>10</sup>
- To determine the eligibility for exemption of certain personal property subject to compliance with the employment and Investment Growth Act (LB775).<sup>11</sup>

---

## Property Tax Administrator

The Property Tax Administrator is the chief executive officer of the Department of Property Assessment and Taxation. The qualifications and duties of the Property Tax Administrator are established by statute (see, section 77-701 and 77-702, R. S. Supp., 2000). The Property Tax Administrator is appointed by the Governor with the approval of a majority of the members of the Legislature. The term of the current Administrator will expire on August 31, 2002.

## Administration

The Administration Division is responsible for management of the support functions of the Department, including the supervision of support staff in the Lincoln office and the data entry staff. As well, this Division performs the personnel, budget and accounting and other administrative functions for the Department.

## Policy/Legal

The Policy/Legal Division is responsible for all legal matters for the Department. The Department currently has one attorney to serve all legal functions. Additionally, the Department has Associates that provide policy functions such as legislation, regulations, correspondence, education, certification of the assessor's certificate, and other associated duties. This Division is responsible for specific statutory duties, including: valuation of state assessed property (railroad companies, public service entities, car companies and air carriers); determination of adjusted valuation of each school district; administrative reports gathering state-wide information of valuation and property taxes; annual report and other informational publications; and, promulgation of the Nebraska Agricultural Land Valuation Manual and other manuals.

## PTAS/CAMA

The Property Tax Administrative System/Computer Assisted Mass Appraisal Division (PTAS/CAMA) is responsible for the administration of the computer software program that the Department provides to its assessment offices and through contract to interested counties. The program was acquired in 1998 and replaced the former program known as County Administered Property System (CAPS), which was developed in the late 1960's. Additionally, the staff of this Division assists the Policy/Legal Division in specific support staff functions, such as the distribution of car company and air carrier taxes and creation of the Tax Increment Finance Annual Report; determine the appraised value for the public sale of educa-

tional lands; and determine the eligibility for exemption of certain personal property subject to compliance with the Employment and Investment Growth Act.

## Information Technology

The Information Technology Division is responsible for the Department's personal computer environment and providing advice and assistance to all Department staff on the utilization of the programs used by the Department. Currently, this Division's staff troubleshoots all technology issues. DAS-Information continues to provide high level assistance in all technology areas, including program development.

## Measurement

The Measurement Division is responsible for ascertaining the level of value and quality of assessment of all real property. This Division works directly with the county officials providing advice and guidance on all issues of the assessment process, with particular focus on the assessment of real property. This Division develops the sales file that is used throughout the assessment process, including: adjusted valuation for school districts; information for the Reports and Opinions of the Property Tax Administrator provided to the Tax Equalization and Review Commission; and, valuation information for use by the county assessors. The sales file is a statutorily required database containing sales of real property for use in valuation and measurement. The two groups of employees in this Division are the Field Liaisons and the Reviewers. Both the Liaisons and the Reviewers are located throughout the state, so that they are experienced in the area of their work and are readily available for assistance to the counties that they serve. The Liaisons work with the county assessors on analysis of sales information and other assessment issues. The Reviewers conduct the sales review and verification process for all agricultural and commercial real property sales.

## Assessment

The Assessment Division is responsible for performing the assessment function in counties where the function has been assumed by the Department. These functions include management of the assessment office in each county and the appraisal of all real property in each county. Currently, the Department has assumed the assessment function in the following nine counties: Dakota, Dodge, Garfield, Greeley Harlan, Hitchcock, Keith, Saunders and Sherman. While the process for managing the assessment office is fairly unchanged as a result of the state assumption, the Department's philosophy regarding the appraisal function is different from that of an individual county. The Department is creating an appraisal staff that is to be shared among the counties that are assumed. It is hoped that sharing these resources will allow for a more efficient allocation of these

resources. While some of the counties are large and active enough to justify their own appraiser or appraisers, some of our counties are small enough, that if closely proximate to one another, will share appraisal staff.

# PROPERTY TAX HISTORY

---

Since the beginning of Nebraska's statehood, property tax was a major source of state and local operating revenue. This tax was initially adopted by the Territorial Legislature in 1857. The growing need for public services and changes in economic structure caused property taxes to steadily increase. This in turn prompted the necessity for relieving property taxes and providing new sources of revenue.

In November 1966, approval of a constitutional amendment abolished "state" property taxes. Also, the Legislature repealed the head and poll taxes, the tax on intangible property, the tax on household goods, and certain miscellaneous personal property taxes. In order to replace lost revenues, the Legislature adopted two broad-based taxes in the Revenue Act of 1967; the state sales and use tax and the income tax. In addition to replacing lost state revenue, a portion of the sales and income tax monies were designated to finance state aid programs. At that time, \$35 million was designated annually for aid to school districts. An additional \$10 million each year was distributed to cities and counties to replace lost revenues due to the elimination of intangible property, household goods, and personal effects from the property tax base.

In 1969, the Homestead Exemption Act was passed to provide property tax relief to owners of residential property. It provided for an exemption of \$800 of actual value for residences valued at \$4,000 or more. At that time, it involved about \$3.5 million annually. The homestead exemption benefits have been changed over the years and currently provide for an exemption of all or part of real property taxes, for individuals over 65 with limited income, veterans, and individuals with certain disabilities. Additionally, approximately, \$1.5 million dollars was appropriated for public and junior colleges.

Since 1967, "local" units of government have exclusively levied property taxes. In 2000, Nebraska's local governments levy approximately \$1.64 billion in property taxes along with approximately \$934 million in local tax relief (state aid), which is also distributed, to local governments (see statistical table 8).

Over the years, Nebraska's property tax structure has changed as the Legislature attempted to address various economic concerns. Property tax remains primarily a tax on real property but changes have been made in the classification of property, as well as the level of assessment at which property is taxed. Nebraska's constitution, Article VIII, Section 1, requires uniformity and proportionality both as to the rate and the valuation.

Social and economic trends continue to impact Nebraska citizens' views on all taxes and state aid programs. Meanwhile, the payers and recipients of taxes share in the benefits of public schools, roads, law enforcement, and a number of other public facilities and programs.

# SUMMARY OF LEGAL/LEGISLATIVE ACTIONS THAT HAVE SHAPED NEBRASKA'S PROPERTY TAX POLICY

---

## Agricultural Land:

1984: *Kearney Convention Center v. Board of Equal.*, 216 Neb. 292, 344 N.W.2d 620 (1984). Commercial property owner requested that their valuation be equalized with agricultural land which was assessed at a lower level of value.

1984: Constitutional amendment, Article VIII, section 1, subsection (4); agricultural land is defined as a separate and distinct class and authorized the use of any different approach to value agricultural land.

1986: The Legislature adopted a method to value agricultural land according to a formula based on earning capacity. Income streams were averaged by county and the capitalization rate was fixed in statute. Earning capacity is not similar to the income approach to value as used in professionally accepted appraisal practices.

1987: *Banner County v. State Bd. of Equal.*, 226 Neb. 236, 411 N.W.2d 35 (1987). While the constitution stated that agricultural land was a separate and distinct class of property, the constitution still required that all real and tangible personal property values be uniform and proportionate. Using the earning capacity formula to value agricultural land would have been allowable if the resulting values had been correlated to be proportionate with all other real and tangible personal property.

1990: Constitutional amendment; agricultural land defined as a separate class of real property and removed from the uniform and proportionate clause, meaning that it need not be uniform and proportionate with OTHER CLASSES of property. However, the values of agricultural land must be uniform and proportionate within the class of agricultural land.

1992: The Legislature allows agricultural land to be valued at 80% of actual or market value. All other real property is to be valued at 100% of actual or market value.

## Personal Property:

1967: The State no longer levied a property tax. The Legislature exempted household goods, clothing and other personal items, and exempted intangible personal property such as stocks, bonds and certificates of deposit.

1970: Constitutional amendment; voters give approval to the Legislature to classify and exempt personal property.

1972-1974: The Legislature partially exempted from taxation agricultural income producing machinery and equipment; business inventory; livestock; grain and seed; and poultry, fish and fur bearing animals. The Legislature provided for a 12.5 percent exemption of actual value for calendar year 1973. The exemption increased by 12.5 percent each year until a total of 62.5 percent was exempt in 1977. Political subdivisions were reimbursed for the tax revenue loss resulting from these exemptions. In 1974, the Nebraska Supreme Court ruled that personal property tax exemptions were constitutional.

1977-1981: The Legislature completely exempted from taxation the classes of personal property that were partially exempted except business inventory and livestock were fully exempted in calendar year 1978. The Legislature appropriated \$58.6 million as Personal Property Relief to reimburse local governments for the losses resulting from these exemptions. Business inventories became totally exempt for calendar year 1979 and a reimbursement of \$62.2 million was appropriated for fiscal year 1979-1980. Livestock became totally exempt in calendar year 1980 and a reimbursement of \$70 million was appropriated for fiscal year 1980-1981.

1982: The Legislature eliminated the Personal Property Tax Relief and the Government Subdivision Fund. LB 816 provided for the distribution of aid to community colleges, natural resource districts, incorporated municipalities, counties, and for aid to school districts from the School Foundation and Equalization Fund.

1986: Car line companies began requesting that their personal property be equalized with all personal property. Citing protection under the 1976 Federal Railroad Revitalization and Regulatory Reform Act – the 4-R Act, the car line companies argue that since much of the personal property in Nebraska was exempt from taxation by the legislature (inventory, agricultural machinery and equipment, earth-moving equipment, etc.), therefore their personal property is being taxed to a greater degree than other personal property in Nebraska. Based upon the 4-R Act, the Federal District Courts ruled that the Nebraska property tax on personal property of car companies violated the Federal 4-R Act. The State was prohibited from collecting property tax on car companies.

1987: Railroads filed suit against Nebraska arguing that the property tax on railroad personal property violated the Federal 4-R Act. The litigation was settled in 1989, resulting in the railroad companies paying tax on 25 percent of their value attributed to personal property for 1987, 1988, and 1989.

1988-1990: Following the railroads, other centrally assessed companies such as pipelines, telecommunications, and airlines appealed to the State Board requesting equalization of their personal property with the exempt property of car companies and railroads. The companies were denied by the State Board and appealed to the Nebraska Supreme Court based on the Nebraska constitutional requirement of uniform and proportionate values for the levy of property taxes.

1989: The Nebraska Supreme Court ruled in favor of four pipeline companies for the 1988 tax year, and the State Board equalized their personal property value to zero. In July 1991, the Nebraska Supreme Court ruled on the tax year 1989 equalization requests of centrally assessed companies. The court found that equalization was not an appropriate remedy. All previous personal property exemptions were declared unconstitutional, effectively overturning the 1974 decision allowing personal property exemptions. As a result of the court's decision on the 1989 cases the State Board reduced the 1990 certified values of the appealing centrally assessed companies by 18.81 percent.

1991: During the legislative session, it became clear that, due to the mounting litigation, something drastic needed to be done to address the problem. While no "long-term" solutions were agreed upon, two short-term options were identified: 1) tax ALL personal property (including inventory, agricultural machinery, etc.) at its actual value; or 2) exempt all personal property from taxation. For 1991, the latter option was adopted and personal property was exempted from taxation.

1992: Constitutional amendment; removed personal property from the uniform and proportionate clause of the constitution. The Legislature enacted the "net-book" concept of taxing depreciable tangible personal property was adopted by the legislature.

#### State Aid to Education (TEEOSA):

In 1990, the Legislature enacted the Tax Equity and Educational Opportunities Support Act (TEEOSA). LB 1059 increased sales and income taxes to provide additional state aid to schools and reduce the reliance on property taxes to fund public education. While the formula for distributing state-aid has been adjusted several times since 1990, some basic elements dealing with the assessment of property remain. Measuring each school district's ability to generate revenue through property taxes is an important component in the school-aid formula. To that end, beginning in 1994, the **assessable** property valuation (agricultural land at 80% of actual value and all other real property at 100% of actual value) of each school district has been determined by the Department of Property Taxation and Assessment each year. This provision "levels the playing field" and prevents a school district from receiving an unfair advantage in the school-aid formula if their property valuations are at a lower level than other school districts.

#### Other Recent Changes in Property Assessment Process:

- In 1994, the Legislature made changes to homestead exemptions; redefined household income, increased the amount of exemption, required the filing of an income statement, placed limits on the value of the home for which an exemption application is made, and implemented a sliding scale that allows partial exemption as income increase.

- Real Estate Transfer Statements (Form 521) filed on or after January 1, 1995 are no longer confidential. This provides greater public access to property sales information.
- In 1996, the Tax Equalization and Review Commission replaced the State Board of Equalization and Assessment in the equalization of property valuations. In addition to its constitutional statewide equalization duties, the Commission hears individual appeals from county board of equalization decisions, replacing the district courts. Commissioners are appointed by the Governor and serve six-year terms.
- Since 1996, the property assessment process has also been dramatically changed. Rather than the county board of equalization acting first, the statewide equalization is completed first and then the county board of equalization performs its duties.
- In 1996, for purposes of statewide equalization, the Legislature established acceptable ranges for the level of value. The acceptable ranges for the level of value are 74 to 80% of actual value for agricultural land and 92 to 100% for all other real property.
- In 1996, the Property Tax Administrator position is created to oversee the Property Tax Division of the Department of Revenue. The powers and duties of the State Tax Commissioner relating to valuation and taxation of property transferred to the Property Tax Administrator. The Property Tax Administrator is appointed by the Governor and approved by the Legislature to serve a six-year term.
- In 1997, the Legislature changed the method for taxation of motor vehicles to a formula rather than according to value. Responsibility for motor vehicle taxation was shifted from the county assessor to the county treasurer.
- Beginning July 1, 1998, a county board may vote by resolution to have the Property Tax Administrator assume the county assessment function. The state then becomes fiscally responsible for the assessment functions in that county. County assessor and employees of the assessor's office become state employees.
- As of July 1, 1999, the former Property Tax Division of the Department of Revenue became a separate agency called the Department of Property Assessment and Taxation, directed by the Property Tax Administrator.
- In 2000, the legislature appropriated \$25 million of state funds for the Relief to Property Taxpayers Act. The act provides direct local property tax relief to all taxable real property in the form of a tax credit and is displayed on the tax statement. The credit, for year 2000, provides \$30.54 in property tax relief for every \$100,000 in taxable value. In other words, for every \$100,000 in taxable value, the state will pay the local taxing subdivisions \$30.54 that otherwise would have been collected from the taxpayer.
- As of year 2000, the real property tax statements are required to display the

property taxes due to each of the local taxing subdivisions for both the current year and prior year. This is an effort to provide more information to the taxpayer, so they may better understand where their property tax dollars go and how they change from year to year.

## 2000 LEGISLATION

---

LB 419. Signed by the governor on February 22, 2000. (This was carry over legislation from the 1999 legislative session. Defines farm home site and farm site).

Section 1. Farm home site shall mean not more than one acre of land contiguous to a farm site that includes an inhabitable residence with improvements and used or could be used for residential purposes. Farm site shall mean the portion of land contiguous to land actively devoted to agriculture, which includes improvements that are agricultural or horticultural in nature, including any uninhabitable or unimproved farm home site. This section of LB 419 becomes effective July 13, 2000.

Section 2 is superseded by section 55 of LB 968. Land currently in use as a farm site and not currently occupied or used for a nonagricultural purpose shall be valued at the same assessed value as the contiguous agricultural land which is under the same ownership. This language becomes effective immediately, but not operative until January 1, 2002.

LB 628. Signed by the governor on April 6, 2000 and became effective July 13, 2000.

Section 1. Entitles the public to copies of public records from governmental agencies. The copies can be made two ways. The interested party could bring their own equipment to photocopy or could make arrangements with the governmental entity to have the copies made elsewhere. The other would involve the governmental entity making the copies and charging a fee not to exceed the actual cost. If the total cost of the copies would exceed \$50, the agency can require a deposit.

When the governmental entity gets a request for records, it has four business days after the actual receipt of the request to provide the records, deny the request in writing, or if the request cannot be fulfilled with reasonable good faith within that time, to prepare a written explanation, including the earliest practicable date for fulfilling a request, an estimate of cost, and an opportunity for the requester to modify the request.

LB 968. Signed by the governor on April 16, 2000, contains the emergency clause and became effective immediately except for specific operative dates.

Section 20. Provides the method for distribution of the mobile home transfer statement. Requires the county clerk to retain the original, two copies to the assessor and the final copy to the applicant.

Section 21. After January 1, 2001 the social security and federal identification number of the grantee are removed from the real estate transfer statement.

Section 26. Requires that a notice must be published in a newspaper that a list of applications from organizations seeking tax exemption, description of the property and the assessors recommendations are available in the office of the assessor. Publication must be at least ten days prior to consideration by the county board of equalization. Operative date is January 1, 2001.

Section 29. Allows only the county assessor the right to appeal the granting of an exemption by the county board of equalization to the Tax Equalization and Review Commission.

Section 34. Requires the Property Tax Administrator to give the assessor exam in February, May, August, and November of each year. Operative date is July 1, 2000.

Sections 36 and 40. Property taxes of railroads and public service entities are required to be included upon the personal property tax roll and collect in the same manner as personal property taxes. From the date the taxes are due and payable, they will be a first lien against the personal property of the railroad or public service company to whom assessed until paid. The procedure for the collection of delinquent tax shall be the same as that used for the collection of delinquent personal property tax.

Section 44. Allows the assessor to file a personal property return for a taxpayer who fails or refuses to file a return. The assessor shall list and value the taxpayer's taxable personal property at net book value.

Sections 48 through 54. Pertain to special valuation of agricultural and horticultural land that uses or purposes other than agricultural or horticultural purposes or uses are influencing the value. Defines agricultural or horticultural land, agricultural or horticultural use, owner, recapture value, special value, subdivision, and zoned for agricultural or horticultural use.

Requires both the special value and the recapture value to be equalized by the Tax Equalization and Review Commission.

Requires the owner of lands eligible for special valuation to file an application with the county assessor on or before June 30, rather than August 1. The assessor has to either approve or deny the application on or before July 15. If the application is denied, the applicant can appeal the denial to the county board of equalization on or before August 15. The county board of equalization shall decide the appeal by September 15. The decision of the county board of equalization may be appealed to the Tax Equalization and Review Commission within 30 days from the date the decision was made. Operative date is January 1, 2001.

Section 57. Requires the agricultural and horticultural land valuation boards to adjust by a percentage increase or decrease the special valuation and recapture valuation in a county or between counties in their respective areas. Operative date is January 1, 2001.

Section 59. Requires the assessor to file the personal property abstract with the Property Tax Administrator on or before June 15 rather than May 15.

Sections 61 through 63. Allows the county treasurer to accept partial payment of taxes for both real and personal if the county board passes a resolution allowing partial payments. Operative date is January 1, 2001.

Sections 64 through 71. Allow for the collection of real estate taxes on mobile homes, cabin trailers, manufactured homes, or similar property assessed and taxed as improvements to leased land to be collected in the same manner as personal property taxes.

Section 86. Changes the operative date of LB 271, which was passed in the 1999 legislative session from January 2, 2000 to January 1, 2001. LB 271 was the legislation requires the state and political subdivisions to pay property taxes or in some cases an in lieu of tax on any property owned by the state or a political subdivision that is not being used for a public purpose.

LB 1107A. Signed by the governor on April 13, 2000 and became effective July 13, 2000.

Section 1. Provides that the property of an Indian housing authority created under Indian law is exempt from all taxes and special assessments. In lieu of such taxes and special assessments an Indian housing authority may agree to make payments for improvements, services, or facilities furnished by a city, village, or public agency. Also defines Indian housing authority and Indian law.

LB 1124. Signed by the governor on April 10, 2000, contains the emergency clause and became effective immediately.

Section 1. Establishes the Greenbelt Advisory Committee to assist and advise the Property Tax Administrator in developing uniform and proportionate special valuations for agricultural real property.

The committee shall consist of 2 active farmers, 1 active rancher, 1 real estate appraiser with expertise in the appraisal of agricultural real estate, 1 professor of agricultural economics, 1 elected county assessor or his or her designee, 1 local planning and zoning official, 1 elected county official who has served or is serving on an agricultural and horticultural land valuation board, and 1 county attorney who has an understanding of the appraisal process and problems encountered in the valuation of real property.

The recommendation of the committee shall be provided by October 1 each year.

LB 1279. Signed by the governor on April 13, 2000, contains the emergency clause and became effective immediately, except for specific operative dates.

Section 2. Cleans up the homestead exemption language in section 77-3508 because of LB 179 in the 1999 legislative session. LB 179 created two types of disability exemptions, one for individuals who have a permanent disability and one for individuals who have lost all mobility and require mechanical aid or prostheses for mobility.

LB 1279 removes the two disability exemptions and replaces it with one, which is the same as has always been for the homestead exemption. Operative date is January 1, 2000.

# ADMINISTRATION OF PROPERTY ASSESSMENTS AND TAXATION

---

All property in the state of Nebraska is subject to property tax unless an exemption is mandated by the Nebraska Constitution, Article VIII, or is permitted by the constitution and enabling legislation is adopted by the Legislature. Federal law may supersede the Nebraska Constitution with regard to taxation of property owned by the federal government or its agencies or instrumentalities. All property in the state of Nebraska, which is subject to taxation, shall be valued as of January 1, 12:01 a.m., of each year.

The assessor is responsible for valuing all real and personal property with the exception of railroads, public service entities, and specific personal property of air carrier and rail car line companies, which are assessed by the Property Tax Administrator. The valuation of real property is determined according to mass appraisal techniques, including but not limited to the following: (1) comparing sales of properties with known or recognized values, taking into account location, zoning, and current functional use; (2) income approach; and (3) cost approach. The valuation of personal property is determined using a statutory method of depreciated values similar to the Federal Modified Accelerated Cost Recovery System and 150 percent declining balance depreciation schedules. All real property is assessed at or near 100% of actual value, except agricultural land is assessed at or near 80% of actual value. Personal property is assessed at 100% of the net book taxable value as determined by the statutory method.

Between January 1 and March 20 of each year, the assessor updates and revises the real property assessment roll. By April 15, agricultural and horticultural land valuation boards (AHLVB) may order an assessor to make changes to agricultural land values. Decisions of the AHLVB may be appealed to the Tax Equalization Review Commission (TERC), within 15 days of their published notice of action. Between April 1 and May 15 the TERC has the authority to adjust by a percentage the valuation of classes or subclasses of real property in any county in order to achieve equalization of property values. Decisions of the TERC may be appealed to the Nebraska Court of Appeals.

The assessor revises the real property assessment rolls, for any actions taken by the agricultural and horticultural land board or TERC, and notifies property owners of value increases or decreases by June 1. Individual protests of real property valuations may be made to the county board of equalization. The county board of equalization may adjust the protested value of individual properties. Decisions of the county board of equalization may be appealed to the TERC.

Personal property is self reported by the taxpayer, on or before May 1. If the assessor makes changes to the reported valuation a notice must be sent to the taxpayer. The action may be appealed to the county board of equalization.

On or before August 10, the TERC equalizes the real property of centrally assessed railroad and public service entities with the level of statewide assessment. The Property Tax Administrator certifies centrally assessed values to the counties.

On or before August 20, the assessor compiles and certifies the total taxable value (real, personal, and centrally assessed) to each local government taxing subdivision for rate setting purposes.

Each year, on or before October 15, the county board of equalization levies the necessary taxes, within the limits of the law, for operation of all functions of county government, school districts, cities, etc. The tax rates for these various local government taxing subdivision are determined by the dividing the subdivision's annual tax request by the current total taxable value within their boundaries. The tax rates are expressed as \$1.00 per \$100 dollars of taxable value.

Property taxes are determined by multiplying the property's taxable value by the total consolidated tax rate for the tax district in which the property is located. The tax district is comprised of various governing bodies empowered to levy property taxes for services, such as county government, school district, city, etc.

On or before November 22, the assessor transcribes the real property tax list and delivers it to the county treasurer for collection of property taxes. All real and personal property taxes, including taxes of centrally assessed railroad and public service companies, are due December 31. The first half of the tax becomes delinquent on the following May 1 and the second half becomes delinquent on September 1, except in Douglas, Lancaster, and Sarpy counties, where the first half is delinquent on April 1 and second half becomes delinquent on August 1.

## Homestead Exemption

The homestead exemption program was created by the 1969 Legislature. The specific requirements have been modified over the years but the main criteria is to provide local property tax relief to qualifying elderly and disabled individuals who own and live in the home for which an exemption application is made. The exemption applies to all or part of the property taxes levied against the home, with the state reimbursing local governments from general fund revenues for those taxes exempted under the program. The laws governing the homestead exemption are found in Nebraska Statutes, Chapter 77, Article 35. For more detailed information, or answers to questions about the Nebraska homestead exemption, please contact the local assessor's office or the Nebraska Department of Revenue.

# STATISTICAL TABLES

---

## Notes regarding statistical tables:

- (1) The data sources for the statistical tables are the Certificate of Taxes Levied Report and the County Abstract of Assessment Report.
- (2) Property taxes levied includes homestead exemption tax loss, which is reimbursed to the counties with state monies.
- (3) Property taxes levied excludes taxes levied on redevelopment or enhanced value of community redevelopment projects using tax increment financing. For more information on redevelopment projects see separate report to legislature published March 1, each year.
- (4) The state total valuations and property taxes levied for the years 1967 through current are listed in Table 1. Tax policy changes that affect the valuation or tax are explained in a previous section of the annual report, e.g. 1997 motor vehicles are no longer taxed based on a value. Also listed in Table 1 are the state total property tax amounts, mill levies, and average statewide property tax rates for applicable years. Payments in lieu of tax made by public power districts and other in lieu of tax payments are not included in total taxes.
- (5) For the years prior to 1981, property was valued as follows:
  - (a) for 1920 and prior years, property was assessed at one fifth of its actual value;
  - (b) from 1921 to 1952, property was assessed at its actual value;
  - (c) from 1953 to 1955 property was assessed at 50 percent of its actual value;
  - (d) in 1956 and 1957 property was assessed at 50 percent of its base value;
  - (e) from 1958 to 1980 property was assessed at 35 percent of its actual value;
  - (f) from 1981 to current property is assessed at 100 percent of actual (market) value, with the exception of agricultural land which in 1992 was changed to an assessment level of 80% of actual value.
- (6) Example; years 1967 to 1980, tax rates were expressed as mills per one-thousand dollars of value.

Property market value	100,000
Assessment level	35%
Assessed value	35,000
Mill levy 55.925 or 55.925/1000	.055925
Calculated Taxes	\$1,957.38
- (7) Example; years 1981 to current tax rates are expressed as rates per one-hundred dollars of value.

Property market value	100,000
Assessment level	100%
Assessed value	100,000
Tax Rate 1.9574 or 1.9574/100	.019574
Calculated Taxes	\$1,957.40
- (8) Example for converting a mill levy to a tax rate:

Mill levy multiplied by assessment level divided by 10.  
55.925 (mill levy) multiplied by .35 (assessment level) divided by 10 (converted to \$100 per value) equals a tax rate of 1.9574
- (9) In Lieu Taxes, Table 22. In Nebraska, every public corporation and political subdivision of the state that is primarily organized to provide electricity or irrigation, and which sells electricity at retail to incorporated cities and villages, makes payments in lieu of property taxes. The payments are equivalent to 5 percent of the gross revenue derived by the power district, plus a fixed amount based on the 1957 levies. Other in lieu of tax payments are also reported for game and parks per section 37-335, housing authorities per section 71-1510, and hospitals per section 77-211.

Definitions of property type categories reported in the annual report statistical tables:

**Unimproved** – land without buildings or structures.

**Improved – land upon which buildings or structures are located.**

**Improvements** – buildings or structures.

**Residential** – all real property for use as a dwelling place or abode whether occupied by the owner, tenant or lessee, and where occupancy is for a period of time usually year-around as opposed to a transitory occupancy.

**Commercial** – all real property predominantly used for commerce, trade, or business.

**Industrial** – all real property used for the process or manufacture of goods or materials.

**Residential/single family** – all real property predominantly used or intended to be used as a dwelling place or abode whether occupied by the owner, tenant or lessee, and where occupancy is for a period of time usually year-round as opposed to a transitory occupancy by single family or two families.

**Commercial** – all real property predominantly used for commerce, trade, or business. For purposes of reporting, multi-family dwellings predominantly used for occupancy by more than two families, are summarized with the commercial property type.

**Industrial** – all real property predominantly used for the process or manufacture of goods or materials.

**Recreational** – all real property predominantly used for diversion, entertainment, and relaxation on an occasional basis. Some of the uses would include fishing, hunting, camping, boating, hiking, picnicking, and the access or view that simply allows relaxation, diversion and entertainment. A building designed for year-round living shall not be categorized as recreational.

**Mineral** – an ownership interest of any minerals, mines, quarries. Producing: mineral is being extracted. Non-producing: mineral is not being extracted.

**Home site** – land within a residential, recreational, commercial or industrial parcel, which is used or intended to be used for residential purposes. For purposes of reporting, home site land is summarized with the parcel's predominant property type or use.

**Farm home site land** – one acre or less of land upon which is located a residence and necessary improvements needed for human habitation and is contiguous to a farm site.

**Farm site land** – the portion of land within an agricultural parcel; includes the land directly associated with the improvements that are agricultural in nature including any uninhabitable or unimproved farm home site. This land shall not be classified as agricultural or horticultural land and does not include a home site.

**Agricultural land** is agricultural land and horticultural land that is primarily used for the production of agricultural products.

**Exempt** – property that receive an exemption from property tax, i.e. governmental or permissive exemptions.

**Centrally assessed** – property that is valued for property tax purposes by the Property Tax Administrator. The type of centrally assessed property included in the tables is the operating property of railroads and public service companies.

**Personal Property** – depreciable tangible personal property which is used in a trade or business or used for the production of income, and which has a determinable life of longer than one year. Personal property net book value is determined pursuant to Nebraska's statutorily defined adjusted basis multiplied by the appropriate depreciation factor.

## Statistical Tables:

History Tables:	
1	1867 to 2000 Assessed Value, Property Taxes Levied, & Average Rate
2	1990 to 2000 Property Taxes Levied by Local Governments
3	1992 to 2000 Annual & Cumulative % Change Value, Taxes, Rates, & State Aid
4	1992 to 2000 Assessed Value & Taxes Levied by Subdivision & by Property Type
5	1992 to 2000 Property Taxes Levied for Bond & Non-Bond

Current & Prior Year:	
6	2000 Value, Taxes Levied, Average Rate, & State Reimbursements for Homestead Exemption and the Property Tax Relief Act, by County
7	1999 vs. 2000 Percent Change in Value, Taxes Levied, & Average Rates, by County
8	FY 1992-1993 to FY 2000-2001 Local Property Tax Relief Aid
9	2000 Property Taxes Levied by Local Governments Subdivisions
10	1999 vs. 2000 Number of Taxing Subdivisions by Type

Current Year Taxing Subdivisions Detail:	
11	County Taxing Subdivision
12	School Systems 2000-2001 Cumulative Totals by System
13	School Systems 2000-2001 Detail of Counties within System
14	School Bonds
15	Cities, Alphabetically & Associated County Location
16	Natural Resource Districts
17	Educational Service Units
18	Community Colleges

93 Counties Analysis:	
19A	2000 Sector Analysis of Value & Taxes Levied by Subdivision & by Property Type
19B	1999 vs. 2000 Percent Change in Value, Taxes Levied, & Average Rates, by County

Miscellaneous:	
20	Record Counts for Real & Personal, Acreage, & Populations, by County
21	Public Power District In Lieu Taxes & Other In Lieu Taxes Paid 2000
22	1992 to 2000 Carline & Air Carrier Taxes Distributed to Counties
23	1994 to 2000 History of School Adjusted Value, State Totals
24	2000 Levels of Value per Tax Equalization & Review Commission (TERC)

1 LB 187, 1979 Legislative Session changed the level of Assessment from 35 percent of actual value to 100 percent of actual value.

2 From 1967 to 1980 -- used mill levies. The mill levies have been adjusted to compare with average state-wide tax rates.

3 1997 value excludes motor vehicle pursuant to 1997 NEB Laws LB 271.

<b>STATE TOTALS</b>				<b>88,307,787,091</b>	<b>955,632,591.06</b>

**Class 1 (grades K through 8)** shall include any school district that maintains only elementary grades under the direction of a single school board.

**Class 2 (grades K-12)** shall include any school district embracing territory having a population of one thousand inhabitants or less that maintains both elementary and high school grades under the direction of a single school board.

**Class 3 (grades K-12)** shall include any school district embracing territory having a population of more than one thousand and less than one hundred thousand inhabitants that maintains both elementary and high school grades under the direction of a single board of education.

**Class 4 (grades K-12)** shall include any school district embracing territory having a population of one hundred thousand or more and less than two hundred thousand inhabitants that maintains both elementary and high school grades under the direction of a single board of education.

**Class 5 (grades K-12)** shall include any school district embracing territory having a population of two hundred thousand or more that maintains both elementary grades and high school grades under the direction of a single board of education.

**Class 6 (grades 9-12)** shall include any school district in this state that maintains only a high school.

**AFFILIATION** of school districts means the on-going association of a Class 1 district or portion thereof not a part of a Class 6 district with one or more existing Class 2-5 districts for the purpose of (1) providing a high school program serving the Class 1 district students and (2) maintaining tax support to finance such program.

**JOINED.** Refers to an elementary district joined with a Class 6 (high school only).

**If the base school is a class 1 elementary district it must be “affiliated with” a class 2-5 school district (grades K-12) or “joined with” a class 6 high school (grades 9-12).**

**UNIFIED SCHOOL.** A unified school system allows for two or more Class 2 or 3 school districts to combine their resources to provide a K-12 education. The unified system is an interlocal agreement between the participating K-12 districts and may include Class I districts.

2000	(4)					

(1) Distribution of taxes occurs in the year following the assessment year.

(2) Carline taxes are distributed to counties' political subdivisions based upon railroad taxes levied.

(3) Air Carrier taxes are distributed to county's general fund based upon all taxes levied within the county vs. state.

(4) 2000 carline & airline taxes distributed in 2001, information not available yet.

Table 23 History of School Adjusted Value, certified by the Property Tax Administrator to Department of Education, pursuant to section 79-1016

STATE TOTALS; School adjusted value for "school systems"

(excludes duplication for elementary schools joined w/CLASS VI high schools)

Year	Estimated Motor Vehicle	Total Unadjusted Value	Adjustment Amount	% Adj Amount of Unadj. Value	Total Adjusted Value (2) & (3)	Used in Aid Calculations
