

Nebraska Department of Property Assessment & Taxation

2002 Annual Report

STATE OF NEBRASKA

DEPARTMENT OF PROPERTY ASSESSMENT & TAXATION

2002 ANNUAL REPORT

PREFACE

This is the **fourth** annual report published for our agency. As of July 1, 1999, the former Property Tax Division of the Department of Revenue became a separate agency called the Department of Property Assessment & Taxation, directed by the Property Tax Administrator. All property tax data prior to 1999 can be found in the Department of Revenue's Annual Report.

The purpose of our annual report is to provide interested citizens with pertinent information about property valuations, tax rates, and taxes levied for local governments. The annual report focuses on summary information for the current tax year and also provides historic data for the state.

The information contained in this annual report should be viewed as a source material. Although every attempt for accuracy is made, this report should not be viewed as a substitute for independent research or legal document in place of an attorney's opinion.

A sincere thank you is extended to all Nebraska assessors for their efforts in reporting data which serves as the basis for much of our annual report.

The Department of Property Assessment & Taxation appreciates any comments that you may have regarding the format, content and usefulness of this information.

PURPOSE

The purpose of the Nebraska Department of Property Assessment and Taxation¹ is to develop information, in various formats, that assists the administrators, payers and beneficiaries of the property taxes to make informed decisions concerning the quality of the assessment function of the property tax system in Nebraska. Beginning on July 1, 1998, the Department assumed the assessment function in several counties in Nebraska.

The Department, directed by the Property Tax Administrator², is statutorily created and is governed by the Nebraska Constitution and statutes. Its functions include, but are not limited to, the following:

- To provide legal, policy and assessment information through regulations, rulings, directives, standards, manuals, and education, to the county assessors and other assessing officers to ensure the uniform execution of the property tax laws³.
- To administer the assessment function in counties which have transferred that responsibility to the Property Tax Administrator⁴.
- To provide advice concerning the assessment of real property to ensure the uniform and proportionate valuation of real property⁵.
- To provide information to the property owner concerning the level of value and quality of the assessment of real property in each county⁶.
- To determine the assessable valuation of all taxable property in each school district⁷.
- To value and distribute the value of property required to be valued by the state, such as railroad companies, public service entities, car companies, and air carriers⁸.
- To administer the assessment administrative program for contracted counties⁹.
- To determine the appraised value for the public sale of educational lands. ¹⁰
- To determine the eligibility for exemption of certain personal property subject to compliance with the Employment and Investment Growth Act (LB775). 11

DIVISIONS of Nebraska Department of Property Assessment & Taxation

Property Tax Administrator

The Property Tax Administrator is the chief executive officer of the Department of Property Assessment and Taxation. The qualifications and duties of the Property Tax Administrator are established by statute (see, Neb. Rev. Stat. section 77-701 and 77-702). The Property Tax Administrator is appointed by the Governor, with the approval of a majority of the members of the Legislature, for a six-year term.

Administration

The Administration Division is responsible for management of the support functions of the Department such as budget and accounting, personnel, and performs general office administration for all divisions. This division includes the Research Director of State and Local Finance, which is a shared position with the Department of Administrative Services – Budget Office. The Research Director works with other state agencies on research and analysis of state and local tax and spending policy, both historical and forecasted, for policy development of state and local finance issues

Policy/Legal

The Policy/Legal Division is responsible for all legal matters for the Department. The Department currently has one attorney to serve all legal functions. Additionally, the Department has Associates that provide policy functions such as legislation, regulations, correspondence, coordination of education for assessor's certification, and promulgation of the Nebraska Assessor Reference Manual and Agricultural Land Manual, information guides/brochures, and other associated duties. This Division is responsible for specific statutory duties, including: valuation of state assessed property (railroad companies, public service entities, car companies and air carriers); distribution of car company and air carrier taxes; creation of the Tax Increment Financing Annual Report; determination of the appraised value for the public sale of educational lands; determination of the eligibility for exemption of certain personal property subject to compliance with the Employment and Investment Growth Act; annual certification of school adjusted valuation used in state aid calculations; administrative reports filed by counties for data collection of valuation and property tax information; preparation of the Department's Annual Report; and to provide specific support functions to users of the computer software program (PTAS/CAMA) that the Department provides to its assessment offices and contracted counties.

Information Technology

The Information Technology Division is responsible for the Department's personal computer environment and providing advice and assistance to all Department staff on the utilization of the programs used by the Department. This division includes the Department's data entry staff which performs support functions to all divisions. Currently, this Division's staff troubleshoots all technology issues and administers the GIS – Geographic Information Systems and associated data bases, e.g. maps with pertinent characteristics that impact valuation, taxation, equalization, etc. This staff is also responsible for the administration of the computer software program for the Property Tax Administrative System/Computer Assisted Mass Appraisal Division (PTAS/CAMA). This program is used by the Department's assessment offices and counties contracted with our office.

Measurement

The Measurement Division is responsible for ascertaining the level of value and quality of assessment of all real property in each county. This Division works directly with county officials and provides advice and guidance on all issues of the assessment process, with particular focus on the assessment of real property. This Division develops the sales file that is used throughout the assessment process, including: determining the adjusted valuation for school districts; information for the Reports and Opinions of the Property Tax Administrator provided to the Tax Equalization and Review Commission; and, valuation information for use by the county assessors. The sales file is a statutorily required database containing sales of real property for use in valuation and measurement. The two groups of employees in this Division are the Field Liaisons and the Reviewers. Both the Liaisons and the Reviewers are located throughout the state, so that they are experienced in the area of their work and are readily available for assistance to the counties that they serve. The Liaisons work with the county assessors on analysis of sales information and other assessment issues. The Reviewers conduct the sales review and verification process for all agricultural and commercial real property sales.

Assessment

The Assessment Division is responsible for performing the assessment function in counties where the function has been assumed by the Department. These functions include management of the assessment office in each county and the appraisal of all real property in each county. Currently, the Department has assumed the assessment function in the following nine counties: Dakota, Dodge, Garfield, Greeley, Harlan, Hitchcock, Keith, Saunders and Sherman. While the process for managing the assessment office is fairly unchanged as a result of the state assumption, the Department's philosophy regarding the appraisal function is different from that of an individual county. The Department is creating an appraisal staff that is to be shared among the counties that are assumed. It is hoped that sharing these resources will allow for a more efficient allocation of resources. While some of the counties are large and active enough to justify their own appraiser or appraisers, some of our counties are small enough to share appraisal staff if they are located close to one another.

PROPERTY TAX HISTORY

Since the beginning of Nebraska's statehood, property tax was a major source of state and local operating revenue. This tax was initially adopted by the Territorial Legislature in 1857. The growing need for public services and changes in economic structure caused property taxes to steadily increase. This in turn prompted the necessity for relieving property taxes and providing new sources of revenue.

In November 1966, approval of a constitutional amendment abolished "state" property taxes. Also, the Legislature repealed the head and poll taxes, the tax on intangible property, the tax on household goods, and certain miscellaneous personal property taxes. In order to replace lost revenues, the Legislature adopted two broad-based taxes in the Revenue Act of 1967; the state sales and use tax and the income tax. In addition to replacing lost state revenue, a portion of the sales and income tax monies were designated to finance state aid programs. At that time, \$35 million was designated annually for aid to school districts. An additional \$10 million each year was distributed to cities and counties to replace lost revenues due to the elimination of intangible property, household goods, and personal effects from the property tax base.

In 1969, the Homestead Exemption Act was passed to provide property tax relief to owners of residential property. It provided for an exemption of \$800 of actual value for residences valued at \$4,000 or more. At that time, it involved about \$3.5 million annually. The homestead exemption benefits have been changed over the years and currently provide for an exemption of all or part of real property taxes, for individuals over 65 with limited income, veterans, and individuals with certain disabilities. Additionally, approximately, \$1.5 million dollars was appropriated for public and junior colleges.

Since 1967, "local" units of government have exclusively levied property taxes. In 2002, Nebraska's local governments levied approximately \$ 1.87 billion in property taxes. In addition, for fiscal year 2002-2003, there is approximately \$ 984.7 million in local tax relief (state aid) appropriated for local governments (see statistical Table 3B & 3C).

Over the years, Nebraska's property tax structure has changed as the Legislature attempted to address various economic concerns. Property tax remains primarily a tax on real property but changes have been made in the classification of property, as well as the level of assessment at which property is taxed. Nebraska's constitution, Article VIII, Section 1, requires uniformity and proportionality both as to the rate and the valuation.

Social and economic trends continue to impact Nebraska citizens' views on all taxes and state aid programs. Meanwhile, the payers and recipients of taxes share in the benefits of public schools, roads, law enforcement, and a number of other public facilities and programs.

SUMMARY OF LEGAL/LEGISLATIVE ACTIONS THAT HAVE SHAPED NEBRAKSA'S PROPERTY TAX POLICY

General Overview:

The Nebraska Constitution, Article VIII sets out the general principles upon which the property tax system is built. Specifically, section 1, subsection (1) states, "Taxes shall be levied by valuation uniformly and proportionately upon all real property and franchises as defined by the Legislature except as otherwise provided in or permitted by this constitution." The constitution further defines different principles for real property and personal property and provides for exemptions and preferential valuations.

Real Property:

Nebraska Constitution Article VIII, section 1, subsection (1) directs that the property taxes imposed on real property shall be based upon valuations that are uniform and proportionate. However, for agricultural land, section 1, subsection (4) provides that valuations need not be uniform and proportionate with other classes of real property but must be uniform and proportionate upon all property within the class of agricultural land. Classification changes are addressed in the following sections for agricultural land and personal property. Over time, changes have also been made in the level of assessment at which property is taxed, as follows:

- a) 1920 and prior years, property was assessed at one fifth of its actual value;
- b) 1921 to 1952, property was assessed at its actual value;
- c) 1953 to 1955 property was assessed at 50 percent of its actual value;
- d) 1956 and 1957 property was assessed at 50 percent of its base value;
- e) 1958 to 1980 property was assessed at 35 percent of its actual value;
- f) 1981 to 1992 property was assessed at 100 percent of actual value;
- g) 1992 to current property is assessed at 100 percent of actual value, with the exception of agricultural land which is assessed at 80% of actual value.

Agricultural Land:

1972: Constitutional amendment, Article VIII, section 1, subsection (5); Legislature is authorized to enact laws providing for the valuation of land actively devoted to agricultural or horticultural uses based on its agricultural or horticultural use without regard for other purposes and uses. Subsequently, the Legislature authorized special valuation.

1984: <u>Kearney Convention Center v. Board of Equal.</u>, 216 Neb. 292, 344 N.W.2d 620 (1984). Commercial property owners requested that their valuation be equalized with agricultural land which was assessed at a lower level of value.

1984: Constitutional amendment, Article VIII, section 1, subsection (4); agricultural land is defined as a separate and distinct class and authorized the use of any different approach to value agricultural land.

1986: The Legislature adopted a method to value agricultural land according to a formula based on earning capacity. Income streams were averaged by county and the capitalization rate was

fixed in statute. Earning capacity is not similar to the income approach to value as used in professionally accepted appraisal practices.

1987: <u>Banner County v. State Bd. of Equal.</u>, 226 Neb. 236, 411 N.W.2d 35 (1987). While the constitution stated that agricultural land was a separate and distinct class of property, the constitution still required that all real and tangible personal property values be uniform and proportionate. Using the earning capacity formula to value agricultural land would have been allowable if the resulting values had been correlated to be proportionate with all other real and tangible personal property.

1990: Constitutional amendment; agricultural land defined as a separate class of real property and removed from the uniform and proportionate clause, meaning that it need not be uniform and proportionate with OTHER CLASSES of property. However, the values of agricultural land must be uniform and proportionate within the class of agricultural land.

1992: The Legislature requires that agricultural land be valued at 80% of actual or market value. All other real property is valued at 100% of actual or market value.

2000: <u>Bartlett v. Dawes County Board of Equal.</u>, 259 Neb 954, 513 N.W.2d 810 (2000). Supreme Court ruled that the Tax Equalization & Review Commission could not adjust by market area to achieve inter-county equalization because market areas were not defined as a class or subclass under the statutes.

2001: In response to the Bartlett case, the Legislature provided for a definition of class or subclass of real property as a group of properties that share characteristics not shared by those outside the class or subclass. The classification may be based on parcel use, parcel type, location, geographic characteristics, zoning, city size, parcel size, and market characteristics that affect market value.

2002: Legislation was passed requiring the Property Tax Administrator to prepare and issue a comprehensive study to determine the level of value of agricultural and horticultural land that is receiving special valuation.

Personal Property:

1967: The Legislature repealed the head and poll taxes, exempted household goods, clothing and other personal items, and exempted intangible personal property such as stocks, bonds and certificates of deposit.

1970: Constitutional amendment; voters give approval to the Legislature to classify and exempt personal property.

1972-1974: The Legislature partially exempted from taxation agricultural income producing machinery and equipment; business inventory; livestock; grain and seed; and poultry, fish and fur bearing animals. The Legislature provided for a 12.5 percent exemption of actual value for calendar year 1973. The exemption increased by 12.5 percent each year until a total of 62.5 percent was exempt in 1977. Political subdivisions were reimbursed for the tax revenue loss

resulting from these exemptions. In 1974, the Nebraska Supreme Court ruled that personal property tax exemptions were constitutional.

1977-1981: The Legislature completely exempted from taxation the classes of personal property that had been partially exempted except business inventory and livestock were fully exempted in calendar year 1978. The Legislature appropriated \$58.6 million as Personal Property Relief to reimburse local governments for the losses resulting from these exemptions. Business inventories became totally exempt for calendar year 1979 and a reimbursement of \$62.2 million was appropriated for fiscal year 1979-1980. Livestock became totally exempt in calendar year 1980 and a reimbursement of \$70 million was appropriated for fiscal year 1980-1981.

1982: The Legislature eliminated the Personal Property Tax Relief and the Government Subdivision Fund. LB 816 provided for the distribution of aid to community colleges, natural resource districts, incorporated municipalities, counties, and for aid to school districts from the School Foundation and Equalization Fund.

1986: Car line companies began requesting that their personal property be equalized with all personal property. Citing protection under the 1976 Federal Railroad Revitalization and Regulatory Reform Act – the 4-R Act, the car line companies argued that since much of the personal property in Nebraska was exempted from taxation by the legislature (inventory, agricultural machinery and equipment, earth-moving equipment, etc.), therefore their personal property was being taxed to a greater degree than other personal property in Nebraska. Based upon the 4-R Act, the Federal District Court ruled that the Nebraska property tax on personal property of car companies violated the Federal 4-R Act. The State was prohibited from collecting property tax on car companies.

1987: Railroads filed suit against Nebraska arguing that the property tax on railroad personal property violated the Federal 4-R Act. The litigation was settled in 1989, resulting in the railroad companies paying tax on 25 percent of their value attributed to personal property for 1987, 1988, and 1989.

1988: LB 1091 - Created a one time appropriation to reimburse local governments for any losses attributable to the railroad 4R Act litigation that exceeded one percent of expected property tax dollars. After line item vetoes and partial overrides, the amount appropriated to the fund from the Cash Reserve Fund totaled \$7.7 million.

1988-1990: Following the railroads, other centrally assessed companies such as pipelines, telecommunications, and airlines appealed to the State Board of Equalization requesting equalization of their personal property with the exempt property of car companies and railroads. The companies were denied by the State Board and appealed to the Nebraska Supreme Court based on the Nebraska constitutional requirement of uniform and proportionate values for the levy of property taxes.

1989: The Nebraska Supreme Court ruled in favor four pipeline companies for the 1988 tax year, and the State Board equalized their personal property value to zero. In July 1991, the Nebraska Supreme Court ruled on the tax year 1989 equalization requests of centrally assessed companies. The court found that equalization was not an appropriate remedy. All previous personal property

exemptions were declared unconstitutional, effectively overturning the 1974 decision allowing personal property exemptions. As a result of the court's decision on the 1989 cases the State Board reduced the 1990 certified values of the appealing centrally assessed companies by 18.81 percent.

1991: LB 829 – Exempted all personal property from property tax for 1991 only and reimbursed local governments for the loss using a series of revenue-raising proposals including a depreciation surcharge, a temporary reduction in the sales tax collection fee, extending the sales tax to manufacturing energy, and a one-year increase in the corporate occupation tax. The total cost was \$120 million.

1992: Constitutional amendment LR 219CA was adopted and removed personal property from the uniform and proportionate clause of the constitution. It authorized personal property to be either taxed on actual value or net book value while allowing reasonable classifications to be exempt, and set apart a classification for the properties of entities that are protected by federal law, such as railroads. The Legislature passed LB 1063 and the "net-book" concept of taxing depreciable tangible personal property was adopted, rather than taxing personal property based on actual value.

1993: The Nebraska Supreme Court ruled on the appeal of the State Board of Equalization and Assessment's action which reduced the 1990 certified values of the appealing centrally assessed companies by 18.81 percent. The court upheld the State Board of Equalization's remedy which was to refund the difference between the tax the appellants would have been required to pay if all of the exempt property in question had been placed on the tax rolls and taxed.

1994: The legislature exempted livestock from the personal property tax.

Recent Property Assessment Structure Changes:

1996: The property assessment calendar was changed so that statewide equalization is completed first in the process and then property valuation notices are sent to individuals. An individual may then protest his or her property valuation to the county board of equalization (LB 452 -1995).

1996: The Tax Equalization and Review Commission (TERC) replaced the State Board of Equalization and Assessment in the equalization of property valuations. In addition to its constitutional statewide equalization duties, the Commission replaced the district court for the purpose of hearing individual appeals from decisions of the Property Tax Administrator, Department of Motor Vehicles, or the county board of equalization involving the valuation and taxation of property. Commissioners are appointed by the Governor and serve six-year terms (LB 452 -1995).

1996: For purposes of TERC's statewide equalization of real property, the Legislature established acceptable ranges for the level of value for each class of property. The acceptable ranges for the level of value are 74 to 80% of actual value for agricultural land and 92 to 100% for all other real property (LB 452 -1995).

1996: The Property Tax Administrator position is created to oversee the Property Tax Division of the Department of Revenue. The powers and duties of the State Tax Commissioner relating to

valuation and taxation of property were transferred to the Property Tax Administrator. The Property Tax Administrator is appointed by the Governor and approved by the Legislature to serve a six-year term (LB 452 -1995).

1998: Beginning July 1, 1998, a county board may vote by resolution to have the Property Tax Administrator assume the county assessment function. The state would become fiscally responsible for the assessment functions in that county. County assessor and employees of the assessor's office in those counties become state employees. (To date, 9 out of 93 counties have turned the assessment function over to the state).

1998: LR 45 CA placed four separate constitutional amendments on the 1998 general election ballot as follows: (1) strike the requirements that motor vehicle taxes be distributed to local governments in proportion to property taxes levied, (2) provide for the merger or consolidation of cities and counties, (3) limit the property tax exemption for government property to property used for a public purpose, and (4) strike all references to townships in the Constitution. The first three amendments succeeded while the fourth failed.

1999: Beginning July 1, 1999, the former Property Tax Division of the Department of Revenue became a separate agency called the Department of Property Assessment and Taxation, directed by the Property Tax Administrator.

2001: Beginning January 1 2001, property of the state and its governmental subdivisions that is not used or not being developed for a public purpose is taxable, based on Constitutional Amendment to Article VIII, section 2, subsection (1). Previously, all governmentally owned property, no matter how used, was exempt from property taxation. The original legislation, LB 271, passed in 1999 and implementation was delayed until 2001.

Motor Vehicles:

1997: The Legislature passed LB 271, changed the method for taxation of motor vehicles to a uniform, statewide tax and fee system rather than according to value. The fee is a nominal amount, generally between \$5 and \$30 and the proceeds are distributed to cities and counties based on the Highway Trust Fund dollars. The motor vehicle tax is determined from a table that begins with the MSRP of the vehicle is new and declines with the age of the motor vehicle. Responsibility for motor vehicle taxation was shifted from the county assessor to the county treasurer.

1998: LR 45 CA amended the constitution, eliminating the requirement that motor vehicle taxes be distributed to local governments in proportion to property taxes levied.

1999: LB 142 – Implemented part of LR 45CA by providing that the proceeds from the motor vehicle tax be distributed 60% to the school district where the vehicle is registered, 22% to the county and 18% to the city except in Douglas County where the city-county shares are reversed.

Homestead Exemption:

1969: Homestead exemption program was created with the intent to exempt from property taxation all or a portion of the value of the residence of individuals meeting certain criteria. The original cost of the program was \$6.4 million and today the cost is approximately \$41 million.

1983: Eliminated a general homestead exemption that exempted the first \$800 of value of a homestead valued at \$4000 or more. The cost savings was \$4.7 million.

1984: LB 809 - Adopted a general homestead exemption of \$3000 and required property tax statements to reflect that the state was financing the exemptions. This was estimated to cost about \$18 million. However, the program was delayed and the repealed after one year. It was never implemented.

1986: LB 1268 - Provided for a sliding scale for homestead exemption benefits for elderly and disabled beneficiaries as income increased.

1988: LB 1105 eliminated the sliding scale of benefits for homestead exemptions and provided that those with income below the filing threshold of \$10,400 received the full \$35,000 exemption.

1989: LB 1105 granted an 8 ½% reduction in property valuation or a \$5,400 general homestead exemption for 1989 only, the reductions to be financed by the state. Total cost \$114 million.

1994: LB 802 enacted significant changes to homestead exemption program; redefined household income, increased the amount of exemption, required the filing of an income statement, placed limits on the value of the home for which an exemption application is made, and implemented a sliding scale that allows partial exemption as income increase. Overall, these changes were revenue neutral.

1999: Increased the homestead exemption income eligibility amounts and expanded the definition of disability for purposes of eligibility. The cost of the expansion was \$8.8 million, pursuant to LB 179.

State Aid to Education (TEEOSA):

1990: The Legislature enacted LB 1059, Tax Equity and Educational Opportunities Support Act (TEEOSA). LB 1059 increased the sales tax rate from 4% to 5% and the income tax rates by 8.5% for 1990 and an additional 8.5 % for 1991 to fund the act. This landmark school finance legislation dramatically increased state aid distributed to schools in an "equalized" manner. School costs were calculated per student within nine "tiers" or groups of similarly-sized schools and the formula enabled each school district to finance the average cost per student for the tier with a combination of state aid and property taxes at a defined "local effort rate". The rate varied based on the amount of appropriation available. LB 1059 also "rebated" 20% of the income tax paid by residents of the district to the district. Total cost when fully implemented was about \$210 million. The purpose of LB 1059 was to provide additional state aid to schools, reduce the reliance on property taxes to fund public education, and to try to remedy inequities in educational fiscal resources for students, reduce the reliance on property taxes to fund public education.

While the formula for distributing state-aid has been adjusted several times since 1990, measuring each school district's ability to generate revenue through property taxes remains an important component in the school-aid formula.

1994: Beginning in 1994, the assessable property valuation (agricultural land at 80% of actual value and all other real property at 100% of actual value) of each school district has been determined by the Department of Property Taxation and Assessment each year. This provision "levels the playing field" and prevents a school district from receiving an unfair advantage in the school-aid formula if their property valuations are at a lower level than other school districts.

1996: The Legislature enacted LB 1050 which revised the school aid formula to (1) limit the amount of income tax rebate to \$82 million, (2) change the distribution of Insurance Premium Tax dollars from per student to being included as part of the equalization aid program, and (3) created an incentive for schools that consolidate.

1997: LB 806 revised the school aid formula by eliminating the tiers created in LB 1059 (1990) and providing for only three cost groupings, sparse, very sparse, and standard. The bill also provided for allocation or calculation of the budget for Class I schools that are part of a Class VI system or are affiliated with another K-12 district, thus integrating the levy of each "system" into the levy limits of LB 1114 (1996). Finally, the bill increased the appropriation for the school aid by \$110 million.

1998: LB 149 - Made a school finance change that provided that the amount of school aid to be provided by the state is the be the full amount needed to fund all calculated needs for schools, assuming the local effort rate is equal to 10 cents less the levy limit.

2002: LB 898- Statutorily reduced the calculated needs of schools by about 1 ¼% for 2002-2003 through 2004-2005 to reduce school aid by about \$22 million.

Other Recent Property Tax Policy Changes:

1996: LB 1114 Imposed levy limits on all local governments to limit the total property tax rate (excluding exceptions) to \$2.24 per \$100 of taxable value beginning in 1998 and \$2.13 when fully implemented in 2001. Exceptions were for bonded debt, grandfathered building fund projects for schools, grandfathered capital lease purchases, and voter-approved overrides. Another crucial change was the concept of allocated levies, wherein counties were responsible for including the levy of small miscellaneous governments within the 45 cent limit of the county.

1996-1997: LB 299 imposed certain budget limits. For all political subdivisions, except schools and SID's 5 years old or less, the budget limit for restricted funds for fiscal year '96-'97 was 2% plus population growth. For fiscal year '97-'98 the budget limit was the prior year's total of restricted funds plus population. For school districts the budget limit for general fund expenditures, other that special education, for fiscal year '96-'97 was 2% plus the percent increase in the number of students. For fiscal year '97-'98 the budget limit was the prior year's general fund expenditures, other than special education, plus the increase in students. There were certain statutory exceptions to the limits and provisions to exceed the limit by 1% required a 75% vote of the governing body.

1996: LB 1177 Created a Municipal Equalization Fund and provided for aid to municipalities that are unable to raise the average amount of property tax revenue per capita with the average property tax levy. The bill also allowed counties to levy a sales tax of up to 1.5% to support the county share of jointly provided public safety services.

1997: LB 269 – (1) Changed the levy limits for Community Colleges from eight cents through 2000-2001 and four cents thereafter to eights cents through 1999-2000 and seven cents thereafter, (2) created a new equalization formula for funding Community Colleges that makes up for any differences between the maximum levy times the valuation for the area and 40% of the total spending allowed to the area, (3) provided for levy allocation by municipalities for Community Redevelopment Authorities, city airport authorities and other entities created by cities, and (4) divided municipalities into three different size groupings for purposes of the state's city equalization formula, per LB1177 (1996).

1998: LB 695- Provided an equalization aid program for counties. The program distributes about \$6 million annually to counties that are unable to generate the average number of dollars per road mile by levying the average county property tax rate. The bill also provided that counties receive \$35 per day for state prisoners held in county jails.

1998: LB 1120 - Created an aid program for rural and suburban fire protection districts that cooperate by setting a uniform tax rate to finance these services in the great majority of any one county. The aid amount is \$10 per rural resident within the agreement. The annual cost is about \$2.5 million.

1999: LB 881 Used the Cash Reserve Fund to provide for specific property tax relief programs. For 1999, \$30 million was distributed to Community Colleges based on valuation. The additional distribution to Community Colleges was also repeated in 2000 using General Funds. Finally, in 2001, \$35 million was transferred to the General Fund to help finance the additional school aid needed to fund the reduction in levy limit for schools from \$1.10 per \$100 of taxable value to \$1.00.

1999: LB 881 also provided for \$25 million for the Relief to Property Taxpayers Act. The act provided direct local property tax relief to all taxable real property in the form of a tax credit and is displayed on the tax statement. The credit, for year 2000, provided \$30.54 in property tax relief for every \$100,000 in taxable value. In other words, for every \$100,000 in taxable value, the state will pay the local taxing subdivisions \$30.54 that otherwise would have been collected from the taxpayer. Due to state budget constraints, the Legislature did not appropriate any monies to the Relief to Property Taxpayers in 2001 and subsequently repealed the Act in 2002.

2002 LEGISLATION

LB 994. Contained the emergency clause and became effective April 19, 2002. This legislation had several other legislative bills amended into it to cover a variety of different issues.

Section 2 requires interest and penalties paid on the delinquent taxes under the Community Development Law to be distributed in the same proportion as the taxes of the political subdivisions. In other words none of the interest and penalties is to go to pay off the bonds or financing. **Amends 18-2147**

Sections 5 and 6 expands the list of documents under section 49-1201 that was amended in 2001 into sections 49-1202 and 49-1203. These statutes allow the postmark date to be considered the filing date for documents and reports with state agencies and political subdivisions. This also allows the date of registration or date of certification to be considered the postmark date. **Amends 49-1202 and 49-1203**

Section 7 requires that an application for a certificate of title for a mobile home be accompanied by a certificate that states that sales or use tax has been paid on the purchase or that the transfer of title was exempt. The county clerk still has to go ahead an issue the title and notate the lien and deliver the title to the lien holder even if the exemption certificate does not accompany the application for title. **Amends 60-106**

Section 10 allows an organization that assists students in obtaining, processing or guarantying of federally reinsured student loans for higher education, an exemption from property taxes. **Amends 77-202**

Section 11 allows the Property Tax Administrator to waive the 30 day notice requirement for non-attendance by the assessor or an employee of the assessor's office at the annual course of training. **Amends 77-415**

Section 12 requires the assessor to send notice of valuation change to whoever the owner of record is as of May 20 for every item of real property with an assessed value different than that of the previous year. **Amends 77-1315**

Section 13 changes the amount spent on improvements from \$1,000 to \$2,500 before an information statement is needed under section 77-1318.01. This does not change building permits that maybe required by counties or municipalities. **Amends 77-1318.01**

Section 14 requires the Property Tax Administrator to issue a comprehensive study developed through the use of professionally accepted mass appraisal techniques in order to determine the level of value of agricultural and horticultural land that's receiving the special valuation when such level cannot be determined through ratio studies. **Amends 77-1327**

Section 15 provides that the county board can only adopt a resolution for the Property Tax Administrator to assume the office of the county assessor on or before October 31, of a year evenly divisible by four. The transfer to the state can be no sooner than July 1 of the second year after the adoption of the resolution. The Property Tax Administrator by December 15 following

the resolution of the county board, may either approve or deny the assuming of the county assessment function. If the assumption of the assessment function is approved the Property Tax Administrator shall seek a sufficient appropriation from the Legislature to perform the required assessment duties. If sufficient appropriation is not made by the Legislature, the Property Tax Administrator shall notify the county on or before July 1 the the assessment function will not be undertaken. **Amends 77-1340**

Section 16 adds definitions for lessee and taxpayer for purposes of the special valuation as it pertains to qualified agricultural and horticultural land. Lessee is a person leasing agricultural or horticultural land from the state or political subdivision that is subject to taxation under 77-202.11 or LB 271. Taxpayer is the owner or lessee responsible for paying the taxes levied. **Amends 77-1343**

Section 17 changes the language throughout the special valuation application process from owner to taxpayer. **Amends 77-1345**

Section 18 adds the "sale or transfer to the state or its political subdivisions" as another disqualifier for removing the special valuation from qualified agricultural and horticultural land. **Amends 77-1347**

Section 19 allows land owned by a public entity that has been receiving the special valuation not to have to pay the increased taxes on the recapture valuation when the land is converted to being used for a public purpose or is exchanged for other land to be used for a public purpose. **Amends 77-1348**

Section 20 requires assessors to report data concerning the assessed valuation of agricultural and horticultural land to their respective agricultural and horticultural land valuation board. No report shall be required before March 20 or after April 1. **Amends 77-1380**

Section 30 requires the Property Tax Administrator to use the comprehensive ratio study or other studies developed which are in compliance with professionally accepted mass appraisal techniques for determining the level of value for each school district. This level of value will be used for school aid purposes. **Amends 79-1016**

ADMINISTRATION OF PROPERTY ASSESSMENTS AND TAXATION

All property in the state of Nebraska is subject to property tax unless an exemption is mandated by the Nebraska Constitution, Article VIII, or is permitted by the constitution and enabling legislation is adopted by the Legislature. Federal law may supersede the Nebraska Constitution with regard to taxation of property owned by the federal government or its agencies or instrumentalities. All property in the state of Nebraska, which is subject to taxation, shall be valued as of January 1, 12:01 a.m., of each year.

The assessor is responsible for valuing all real and personal property with the exception of railroads, public service entities, and specific personal property of air carrier and rail car line companies, which are assessed by the Property Tax Administrator. The valuation of real property is determined according to mass appraisal techniques, including but not limited to the following: (1) comparing sales of properties with known or recognized values, taking into account location, zoning, and current functional use; (2) income approach; and (3) cost approach. The valuation of personal property is determined using a statutory method of depreciated values similar to the Federal Modified Accelerated Cost Recovery System and 150 percent declining balance depreciation schedules. All real property is assessed at or near 100% of actual value, except agricultural land is assessed at or near 80% of actual value. Personal property is assessed at 100% of the net book taxable value as determined by the statutory method.

Between January 1 and March 20 of each year, the assessor updates and revises the real property assessment roll. By April 15, agricultural and horticultural land valuation boards (AHLVB) may order an assessor to make changes to agricultural land values. Decisions of the AHLVB may be appealed to the Tax Equalization Review Commission (TERC), within 15 days of their published notice of action. Between April 1 and May 15 the TERC has the authority to adjust by a percentage the valuation of classes or subclasses or real property in any county in order to achieve equalization of property values. Decisions of the TERC may be appealed to the Nebraska Court of Appeals.

The assessor revises the real property assessment rolls, for any actions taken by the agricultural and horticultural land board or TERC, and notifies property owners of value increases or decreases by June 1. Individual protests of real property valuations may be made to the county board of equalization. The county board of equalization may adjust the protested value of individual properties. Decisions of the county board of equalization may be appealed to the TERC.

Personal property is self reported by the taxpayer, on or before May 1. If the assessor makes changes to the reported valuation a notice must be sent to the taxpayer. The action may be appealed to the county board of equalization.

On or before August 10, the TERC equalizes the real property of centrally assessed railroad and public service companies with the statewide level of assessment. The Property Tax Administrator certifies centrally assessed values to the counties.

On or before August 20, the assessor compiles and certifies the total taxable value (real, personal, and centrally assessed) to each local government taxing subdivision for rate setting purposes.

Each year, on or before October 15, the county board of equalization levies the necessary taxes, within the limits of the law, for operation of all functions of county government, school districts, cities, etc. The tax rates for these various local government taxing subdivision are determined by the dividing the subdivision's annual tax request by the current total taxable value within their boundaries. The tax rates are expressed as \$1.00 per \$100 dollars of taxable value.

Property taxes are determined by multiplying the property's taxable value by the total consolidated tax rate for the tax district in which the property is located. The tax district is comprised of various governing bodies empowered to levy property taxes for services, such as county government, school district, city, etc.

On or before November 22, the assessor transcribes the real property tax list and delivers it to the county treasurer for collection of property taxes. All real and personal property taxes, including taxes of centrally assessed railroad and public service companies, are due December 31. The first half of the tax becomes delinquent on the following May 1 and the second half becomes delinquent on September 1, except in Douglas, Lancaster, and Sarpy counties, where the first half is delinquent on April 1 and second half becomes delinquent on August 1.

Homestead Exemption

The homestead exemption program was created by the 1969 Legislature. The specific requirements have been modified over the years but the main criteria is to provide local property tax relief to qualifying elderly and disabled individuals who own and live in the home for which an exemption application is made. The exemption applies to all or part of the property taxes levied against the home, with the state reimbursing local governments from general fund revenues for those taxes exempted under the program. The laws governing the homestead exemption are found in Nebraska Statutes, Chapter 77, Article 35. For more detailed information, or answers to questions about the Nebraska homestead exemption, please contact the local assessor's office or the Nebraska Department of Revenue.

STATISTICAL TABLES

Notes regarding statistical tables:

- (1) The data sources for the statistical tables are the Certificate of Taxes Levied Report and the County Abstract of Assessment Report.
- (2) Property taxes levied includes homestead exemption tax loss.
- (3) Property taxes levied excludes taxes levied on redevelopment or enhanced value of community redevelopment projects using tax increment financing (TIF). See report to the legislature for redevelopment projects, published on March 1 of each year.
- (4) The state total valuations and property taxes levied for the years 1967 through current are listed in Table 1. Tax policy changes that affect the valuation or tax are explained in a previous section of the annual report, e.g. 1997 motor vehicles are no longer taxed based on a value. Also listed in Table 1 are the state total property tax amounts, mill levies, and average statewide property tax rates for applicable years. Payments in lieu of tax made by public power districts and other in lieu of tax payments are not included in total taxes.
- (5) For the years prior to 1981, property was valued as follows:
 - h) for 1920 and prior years, property was assessed at one fifth of its actual value;
 - i) from 1921 to 1952, property was assessed at its actual value;
 - j) from 1953 to 1955 property was assessed at 50 percent of its actual value;
 - k) in 1956 and 1957 property was assessed at 50 percent of its base value;
 - 1) from 1958 to 1980 property was assessed at 35 percent of its actual value;
 - m) from 1981 to current property is assessed at 100 percent of actual (market) value, with the exception of agricultural land which in 1992 was changed to an assessment level of 80% of actual value.
- (6) Example; years 1967 to 1980, tax rates were expressed as mills per one-thousand dollars of value.

Property market value	100,000
Assessment level	35%
Assessed value	35,000
Mill levy 55.925	
or 55.925/1000	.055925
Calculated Taxes	\$ 1,957.38

(7) Example; years 1981 to current, tax rates are expressed as rates per one-hundred dollars of value.

Property market value	100,000
Assessment level	100%
Assessed value	100,000
Tax Rate 1.9574	
or 1.9574/100	.019574
Calculated Taxes	\$ 1,957.40

(8) Example for converting a mill levy to a tax rate:

Mill levy multiplied by assessment level divided by 10. 55.925 (mill levy) multiplied by .35 (assessment level) divided by 10 (converted to \$100 per value) equals a tax rate of 1.9574

(9) In Lieu Taxes, Table 21. In Nebraska, every public corporation and political subdivision of the state that is primarily organized to provide electricity or irrigation, and which sells electricity at retail to incorporated cities and villages, makes payments in lieu of property taxes. The payments are equivalent to 5 percent of the gross revenue derived by the power district, plus a fixed amount based on the 1957 levies. Other in lieu of tax payments are also reported for game and parks per section 37-335, housing authorities per section 71-1590, and hospitals per section 77-211.

Definitions of property type categories reported in the annual report statistical tables:

Unimproved - land without buildings or structures.

Improved - land upon which buildings are located.

Improvements - buildings or structures.

Residential/single family – all real property predominantly used or intended to be used as a dwelling place or abode whether occupied by the owner, tenant or lessee, and where occupancy is for a period of time usually year-round as opposed to a transitory occupancy by single family or two families.

Commercial - all real property predominantly used for commerce, trade, or business. For purposes of reporting, multi-family dwellings predominantly used for occupancy by more than two families, are summarized with the commercial property type.

Industrial - all real property predominantly used for the process or manufacture of goods or materials.

Recreational - all real property predominantly used for diversion, entertainment, and relaxation on an occasional basis. Some of the uses would include fishing, hunting, camping, boating, hiking, picnicking, and the access or view that simply allows relaxation, diversion and entertainment. A building designed for year-round living shall not be categorized as recreational.

Mineral – an ownership interest of any minerals, mines, quarries. Producing: mineral is being extracted. Non-producing: mineral is not being extracted.

Home site – land within a residential, recreational, commercial or industrial parcel, which is used or intended to be used for residential purposes. For purposes of reporting, home site land is summarized with the parcel's predominant property type or use.

Farm home site land – one acre or less of land upon which is located a residence and necessary improvements needed for human habitation and is contiguous to a farm site.

Farm site land – the portion of land within an agricultural parcel; includes the land directly associated with the improvements that are agricultural in nature including any uninhabitable or unimproved farm home site. This land shall not be classified as agricultural or horticultural land and does not include a home site.

Agricultural land is agricultural land and horticultural land that is primarily used for the production of agricultural products.

Exempt - property that receive an exemption from property tax, i.e. governmental or permissive exemptions.

Centrally assessed – property that is valued by the state for property tax purposes. The centrally assessed property included in the tables reflects operating property of railroads and public service entities.

Personal Property – depreciable tangible personal property which is used in a trade or business or used for the production of income, and which has a determinable life of longer than one year. Personal property net book value is determined pursuant to Nebraska's statutorily defined adjusted basis multiplied by the appropriate depreciation factor.

¹ From 1967 to 1980 Nebraska used mill levies. The mill levies have been adjusted to compare with average state-wide tax rates.

 $^{2\ 1981\} Assessment\ level\ changed\ from\ 35\ percent\ of\ actual\ value\ to\ 100\ percent\ of\ actual\ value\ (LB\ 187\ passed\ 1979).$

^{3 1997} value excludes motor vehicle pursuant to 1997 NEB Laws LB 271.

NOTES

- [1] MV taxes isolated due to different tax policy; for years 1992-1996 motor vehicle is part of taxes levied; for years 1997-2001 motor vehicle is a tax & fee basis calendar yr data per DMV & State Treas.; 2002 MV data is estimated; School Portion of MV estimated at 60% per section 60-3003.
- [2] NET local tax relief excludes homestead exemption and property tax credit amounts, as these amounts are included in taxes levied.
- [3] Total local education tax relief includes state aid for K-12 schools (TEEOSA) and all other forms of education aid (e.g. special education).

Table 10 2001 vs 2002 Number of Taxing Subdivisions by Type

Taxing Subdivision Type:	2001	2002	Notes:
Counties	93	93	
Cities (1)	516	516	(1) 8 cities overlap into multiple counties; Emerson, Halsey,
			Newman Grove, Oxford, Palisade, Tilden, Trumbell, and Wakefield.
Townships	427	427	
Fire Districts (2)	416	416	(2) 416 unique fire districts, 171 overlap into multiple counties,
The Districts	110	110	245 are located within single counties,647 fire districts by county.
NRD Natural Resource Districts	23	23	
ESU Educational Service Units	18	18	
Community Colleges	6	6	
School Districts:			
Class 1 Elementary Districts	271	256	
K-12 Base School Districts	258	255	
Class VI High School Districts	18	18	
Total Base School Districts	547	529	
K-12 Non-Affiliated Base Schools	127	126	
Non-Affiliated K-12 in Unified Systems			
	12 131	12 129	
K-12 Affiliated Base Schools			
Affiliated K-12 in Unified Systems	9	7	
Unified School Systems	8	7	
Class VI High School Districts	18	18	
Total School Systems (including unified)	263	261	
School Bonds	144	148	
Miscellaneous Districts:			
Airport Authority County	5	5	
Airport Authority City	30	29	
Agricultural Society	77	76	
Ambulance	2	2	
Fair/County Extension	2	2	
Cemetery (3)	78	78	(3) 78 unique cemeteries 12 overlap into multiple counties.
Community Building	2	2	(-),
Drainage District	4	4	
Downtown Improvement District	1	1	
Historical Society	19	19	
Hospital Districts (4)	11	11	(4) 11 unique hospital districts 4 overlap into multiple counties.
Library/Bookmobile	6	6	(1) 11 unique nospitul districts 1 overlap une muniple commess
Metropolitan Utilities District (5)	1	1	(5) metropolitan utilities district overlaps into 2 counties.
Parking District	3	3	(-) sp s
Reclamation District (6)	2	2	(6) Twin Loup in 5 counties & Loup Basin in 4 counties.
Road District	9	9	(o) That Zoup and commes & Zoup Sushi at 7 commess
Railroad Transportation Safety District	1	1	
Sanitary Improvement Districts	244	288	
Omaha/Douglas Building	1	1	
Omaha/Douglas Transit Authority	1	1	
Landfill	1	1	
Community Redevelopement Authority	4	4	
Public Building Commission	1	1	
Total Miscellaneous Districts	505	547	
		<u> </u>	_
Estimated total number of taxing subdivisions levying a property tax	2,267	2,307	
suburrisions icrying a property tax	4,401	2,307

261 School Systems 2002-2003	98,162,491,459	1,038,678,036.99			

Class 1 (grades K through 8) shall include any school district that maintains only elementary grades under the direction of a single

Class 2 (grades K-12) shall include any school district embracing territory having a population of one thousand inhabitants or less that maintains both elementary and high school grades under the direction of a single school board.

Class 3 (grades K-12) shall include any school district embracing territory having a population of more than one thousand and less than one hundred thousand inhabitants that maintains both elementary and high school grades under the direction of a single board of

Class 4 (grades K-12) shall include any school district embracing territory having a population of one hundred thousand or more and less than two hundred thousand inhabitants that maintains both elementary and high school grades under the direction of a single board of education.

Class 5 (grades K-12) shall include any school district embracing territory having a population of two hundred thousand or more that maintains both elementary grades and high school grades under the direction of a single board of education.

Class 6 (grades 9-12) shall include any school district in this state that maintains only a high school.

AFFILIATION of school districts means the on-going association of a Class 1 district or portion thereof not a part of a Class 6 district with one or more existing Class 2-5 districts for the purpose of (1) providing a high school program serving the Class 1 district students and (2) maintaining tax support to finance such program.

JOINED. Refers to an elementary district joined with a Class 6 (high school only).

If the base school is a class 1 elementary district it must be "affiliated with" a class 2-5 school district (grades K-12) or "joined with" a class 6 high school (grades 9-12).

UNIFIED SCHOOL. A unified school system allows for two or more Class 2 or 3 school districts to combine their resources to provide a K-12 education. The unified system is an interlocal agreement between the participating K-12 districts and may include Class I districts.

2002	(4)							

⁽¹⁾ Distribution of taxes occurs in the year following the assessment year

⁽²⁾ Car Line taxes are distributed to counties' political subdivisions based upon railroad taxes levied, per Section 77-684.

⁽³⁾ Air Carrier taxes are distributed to county's general fund based upon all taxes levied for the county vs. state, per Section 77-1250.

^{(4) 2002} car line & air carrier taxes distributed in 2003, information not available yet.
